Additional Information: This new statutory rule contains several ambiguities and also leaves to the PBGC the development of specific rules and procedures necessary to make this system work. The regulation will, for example, contain rules on how the PBGC will value its employer liability recoveries for purposes of computing the recovery ratio, whether the allocation of amounts payable under this provision will be done as part of the regular section 4044 asset allocation, and whether the PBGC will pay these benefits by increasing the amount of annuity payments it is making to participants or making lump sum payments.

4206. RETIREMENT EQUITY ACT AMENDMENTS - VALUATION OF PLAN BENEFITS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341

CFR Citation: 29 CFR 2619

Legal Deadline: None

Abstract: The Retirement Equity Act of 1984 ("REA") requires plans to provide certain benefits, prohibits the elimination of benefit options and certain early retirement benefits and retirement type subsidies, and mandates the range of interest rates that may be used in calculating the amount of a non-consensual lump sum benefit. The Tax Reform Act of 1986 ("TRA '86") slightly modified the interest rate restrictions and extended them to the calculation of all lump sum benefits.

These rules necessitate several amendments to the PBGC's valuation of benefits regulation (29 CFR Part 2619). The major changes will address the rules on determining the form of benefit to be valued on plan termination and the interest rate rules for lump sum payments in standard terminations.

Abstract: Under Title IV of ERISA, a single-employer plan covered by the termination insurance program may terminate in a "standard termination" if the plan has assets sufficient to provide for all benefit liabilities under the plan. The termination process is complete, and the PBGC's guarantee is extinguished, once the plan administrator distributes benefit liabilities by purchasing "irrevocable commitments" (annuity contracts) from an insurer or by distributing benefits in any other permitted form (generally a lump sum cash payment). Significance: Regulatory Program

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following

example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

Thus, there is no double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan.

This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

4210. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

Abstract: The Pension Protection Act added section 302(f) of ERISA and section 412(n) of the Internal Revenue Code to impose a lien on all assets of the contributing sponsor and each member of its controlled group for unpaid contributions totaling in excess of $1 million (including interest). The lien runs in favor of the plan, but can be perfected and enforced only by (or at the direction of) the PBGC. 4213. DISTRESS TERMINATIONS OF SINGLE-EMPLOYER PLANS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c)

CFR Citation: 29 CFR 2616

Legal Deadline: None

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, a plan may voluntarily terminate only if the termination satisfies the statutory conditions for a standard or distress termination. These rules were further modified by the 1987 Pension Protection Act, which increased the benefits that must be provided, or for which the employer maintaining the plan is liable, upon plan termination. Thus, under current law, unless a plan has sufficient assets to satisfy all plan benefit liabilities, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and all members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, they are unable to continue to maintain the plan. Additional Information: ABSTRACT CONT: The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Although the notice of proposed rulemaking for this regulation was issued prior to enactment of the Pension Protection Act, the final rule will reflect the relevant statutory changes from that Act.

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(b); 29 USC 1344

CFR Citation: 29 CFR 2617

Legal Deadline: None

Abstract: Under ERISA Section 4041, as amended by the Single-Employer Pension Plan Amendments Act of 1986 and the Pension Protection Act, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan may be voluntarily terminated only if it is sufficient for all benefit liabilities (i.e., all benefits provided under the plan on the termination date, whether or not vested). This is referred to as a "standard" termination. SEPPAA also modified many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing the new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 ("SEPPAA") and the Pension Protection Act ("PPA") made several changes in Title IV rules and procedures that affect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to the current law. For example, because SEPPAA altered the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2606.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contained, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA and the PPA significantly changed the rules on employer liability to the PBGC in distress and involuntary terminations. Now, an employer is liable to the PBGC for the total plan underfunding, (cont)

Part XLIII

Small Business Administration

Semiannual Regulatory Agenda

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration (SBA).

SUMMARY: This is SBA's 25th semiannual agenda of regulations. Although not a regulatory agency, SBA has attempted to draft agendas that meet both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291, the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, and Public Law 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual agency official listed for the particular item.

For information concerning SBA's overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, U.S. Small Business Administration, 409 Third Street SW., Washington, DC 20416, (202) 205-6642.

SUPPLEMENTARY INFORMATION: The SBA agenda contains many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific content nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemaking, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the 12-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn and reviews completed since the preceding agenda.

Publication of the agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: August 26, 1991.

June Nichols,

Deputy Administrator.

Abstract: Public Law 101-574, enacted November 15, 1990, permits SBA to require that a firm have been in business for a minimum period of time as a condition of 8(a) program eligibility only if SBA provides for a waiver to this requirement. The waiver criterion is provided in the statute. Current regulations provide that a firm must have been in business for two full years as evidenced by revenues shown on filed income tax returns in order to be eligible for the program.

This rule is an amendment to the program regulation governing the determination of potential for success as a condition of 8(a) program eligibility.

Abstract: Section 115.35(c) will be simplified so that it is clear when and how much a contractor and surety must remit payments to the Agency; and conversely, when the Agency will remit returns for decreases. This section has caused numerous accounting problems with sureties and contractors. As written, on contracts increased by $10,000 to $49,999, yet less than 25% of the original contract amount, the surety must report the increase, but no fee is due. However, surety and contractor are still billed. The section, as written, leads to situations where some contracts are increased resulting in fees due and payable from contractors for as little as $60, but others are increased where fees up to $270 are waived.

Abstract: This rule will revise one of the two possible size standards which must be met by applicant concerns seeking financing from a small business investment company. Specifically, a third test (total assets) will be added to the two existing tests in the alternate size standard. Further, there will be a change to the permissible limits under the existing tests. Additionally, a provision delineating authority regarding examinations and investigations will be added to the program regulation.

Abstract: These regulations would implement the passage of the Small Business and Federal Procurement Competition Enhancement Act of 1984, which authorized the placement of Small Business Administration (SBA) Breakout Procurement Center Representatives (BPCRs) at major procurement centers and the Small Business Administration Reauthorization and Amendment Act of 1988, which further expanded the authority of such personnel. The purpose of these proposed regulations is to advise Government personnel of the division of responsibilities that must be performed to implement the law. The current regulations in 13 CFR 125.6, Government Prime Act Contracts Assistance, addresses only one portion of the procurement center representatives (PCR) program as it relates to those PCRs known as Traditional PCRs. This group of individuals is basically responsible for the small business set-aside program versus the mandate to BPCRs to breakout acquisitions for full and open competition. The Federal Acquisition Regulations contain basic regulations for the breakout (cont)

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates few regulations. However, TVA has four regulations under development and has published a notice of proposed rulemaking with regard to a fifth regulation. In addition, TVA has published an interim final common rule with regard to a sixth regulation. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

4307. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

4309. PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470aa to 470mm

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would amend the sections in the final uniform regulations to implement recent amendments to the Archaeological Resources Protection Act of 1979. Principally, these changes address public awareness programs, archaeological surveys and schedules, and guidance to Federal agencies on the disposition of human remains and directly associated objects found at archaeological sites. No direct costs to the public are anticipated, as the proposed rule would deal primarily with management and protection of archaeological resources by Federal agencies.

4310. PROTECTION OF ARCHAEOLOGICAL RESOURCES; UNIFORM REGULATIONS

Legal Authority: 16 USC 470ii(a)

CFR Citation: 18 CFR 1312

Legal Deadline: None

Abstract: The proposed rule would revise the prohibited acts section of the uniform regulations to conform to recent amendments to the Archaeological Resources Protection Act, thus enabling Federal land managers to assess civil penalties for the attempt to excavate, remove, damage, alter, or otherwise deface archaeological resources. The proposed rule would thus affect persons who make unauthorized use of archaeological resources or attempt to do so.

Significance: Regulatory Program

Legal Authority: 16 USC 831 to 831dd; 31 USC 1352

CFR Citation: 18 CFR 1315, (New)

Legal Deadline: None

Abstract: By this regulation the Tennessee Valley Authority adopts a common interim final rule issued in response to Section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, cooperative agreements, grants, and loans from using appropriated funds for lobbying the executive or legislative branches of the Federal Government in connection with a specific contract, cooperative agreement, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, cooperative agreement, grant, loan, or a Federal commitment to insure or guarantee a loan must disclose lobbying.

Semiannual Regulatory Agenda

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council in compliance with section 5 of the Executive Order 12291 (Federal Regulation). These regulations are published as Federal Acquisition Regulations (FAR). This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions; however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Ms. Beverly Fayson, FAR Secretariat, Room 4041, GS Building, Washington, DC 20405, (202) 501-4755.

SUPPLEMENTARY INFORMATION: DoD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FACs). None of the regulations listed in this agenda are considered major under Executive Order 12291 "Federal Regulation."

Dated: September 13, 1991.

Abstract: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council are considering a change to FAR 15.605 to state that quality must be an evaluation factor in solicitations for services but must only be considered in the planning of other acquisitions. This change will better implement the requirements of Pub. L. 99-661, sec. 924(a).

Abstract: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council are considering changes to the Federal Acquisition Regulation (FAR) to amend the clause at 52.246-4, Inspection of Services-Fixed-Price. The proposed changes revise the clause by adding a new paragraph (d), which will allow the Government to inspect or test at the contractor's or subcontractor's facility and require the contractor to furnish, without additional change, all reasonable facilities and assistance for the safe and convenient performance of these duties and will redesignate existing paragraphs (d) and (e) as (e) and (f). The coverage will be useful in contracts for services such as storage, ship repair, and operation and maintenance of Government-owned facilities.

Abstract: In accordance with section 833 of the Department of Defense Authorization Act for Fiscal Year 1989 (Pub. L. 100-456), the Councils are considering an amendment to the FAR, which will add Subpart 51.3, Contractor Use of Government Discount Air Passenger Transportation Fares, and a new clause at 52.251-XX, Government Discount Air Passenger Transportation Fares. The coverage permits contractor personnel traveling under certain Government contracts to use the same discount airfares available to Federal employees traveling at Government expense. The change to 31.205-46, Travel Costs, limits the contractor's recovery of travel costs to the discount air fare provided for in the new subpart.

Legal Authority: 40 USC 486(c); 10 USC 2301 to 2331; 42 USC 2473(c)

CFR Citation: 48 CFR 50.203(b)(4)

Legal Deadline: Final, Statutory, November 5, 1990.

Abstract: With respect to extraordinary contractual actions, paragraph (b)(4) of 48 CFR 50.203, Limitations on exercise of authority, has been revised by deleting from the first sentence, the words, "...and neither House of Congress has adopted a resolution

disapproving the obligation." The revised text states that no contract, amendment, or modification shall be made under the Act's authority that will obligate the Government for any amount over $25 million, unless the Senate and the House Committees on Armed Services are notified in writing of the proposed obligation and 60 days of continuous session of Congress have passed since the transmittal of such notification. However, this subparagraph (4) does not apply to indemnification agreements authorized under 48 CFR 50.403.

The revision is based on amendments to Public Law 85-804 (50 USC 1431) by Public Law 101-510 (Title XIII, Section 1313) and Public Law 102-25 (Title VII, Section 705(f)).

Legal Authority: 40 USC 486(c); 10 USC 2301 to 2331; 42 USC 2473(c)

CFR Citation: 48 CFR 8; 48 CFR 52

Legal Deadline: None

Abstract: The Defense Acquisition Regulations and Civilian Agency Acquisition Councils are considering amending FAR Parts 8 and 52 to provide guidance in the procurement of helium. Pub. L. 86-777, the Helium Act, requires that all major helium requirements be purchased from the Secretary of the Interior. This includes the procurement of helium by Federal agencies as well as by contractors for use in Government contracts. The proposed coverage will assist Government agencies and contractors in complying with the Helium Act (PL 86-777) by ensuring that contracting officers and contractors are aware of the requirement for using Bureau of Mines Helium in Government contracts.

CFR Citation: 48 CFR 42.1205(a)(3)(iii) and (iv)

Legal Deadline: None

Abstract: The Defense Acquisition Regulations and Civilian Agency Acquisition Councils are considering revising 42.1205(a)(3) by making the current submission requirements listed in (a)(3)(iii) and (iv) for an agreement to recognize a contractor's change of name required only if requested by the contracting officer. It is felt that information concerning the "total dollar value as amended" and the "remaining unpaid balance" is not needed in all cases, and in most if not all cases it is out of date shortly after receipt.

Legal Authority: 40 USC 486(c); 10 USC 2301 to 2331; 42 USC 2473(c)

CFR Citation: 48 CFR 49

Legal Deadline: None

Abstract: Federal Acquisition Regulation (FAR) 49.101(f) is added to clearly establish that the release of excess funds after termination is the responsibility of the contracting officer unless specifically designated to the technical contracting officer. A corresponding change is made to FAR 49.105-2. FAR 49.110 is revised to rename "Negotiation Memorandum" to "Settlement Negotiation Memorandum" to differentiate from the memorandum developed under 15.800, Price Negotiation.

Commodity Futures Trading Commission

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules, which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESSES: Comments should be sent to: Gerry Smith, Special Assistant to the Executive Director, Commodity Futures Trading Commission, 2033 K Street NW., Washington, DC 20581, (202) 254-6090.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* (RFA), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of April and October of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules, which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1]

The Commission's agenda represents its best estimate of significant rules, which will be considered over the next 12 months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1991 regulatory flexibility agenda as part of the Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1991 regulatory flexibility agenda is set forth below.

Issued in Washington, DC, on August 30, 1991, by the Commission.

Jean A. Webb,

Secretary of the Commission.

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (April 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda, which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar and, on a weekly basis, an advisory which lists rules that the Commission is considering or will consider in the near future.

4416. ORDERS FROM ANOTHER EXCHANGE MEMBER ON THE FLOOR

Legal Authority: 7 USC 6; 7 USC 6g; 7 USC 7; 7 USC 7a; 7 USC 12a

CFR Citation: 17 CFR 1.35

Legal Deadline: None

Abstract: Currently, regulation 1.35 (a-1) (3) exempts a member receiving an order from another member on the floor from the requirement that an order ticket be prepared and time stamped upon receipt, if the member receiving such order notes on his trading card or other record the time of execution to the nearest minute. The anticipated proposed regulation will amend existing regulation 1.35 to require that an order ticket be prepared for orders placed by members on the floor of an exchange with another member for execution (CTI 3 trades) as is presently required for all other orders. Alternatively, the proposed regulation may require other audit trail improvements for such orders. The proposed amendment is intended to improve the available audit trail for such orders so that trading activity may be better monitored. The proposed regulation will contain an exemption for certain inter-commodity or futures/option spread transactions to preserve the efficient execution of such orders.

Legal Authority: 7 USC 6c; 7 USC 6f; 7 USC 6g; 7 USC 12a

CFR Citation: 17 CFR 1.12; 17 CFR 1.17

Legal Deadline: None

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment preserves the one-day grace period for debit/deficit accounts unless the account had been in debit/deficit status on the previous business day and the previous day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

Abstract: The Commission is considering whether to amend Rule 1.55, its basic rule with respect to risk disclosure by futures commission merchants and introducing brokers. Any such amendments would be designed to further simplify risk disclosure with respect to trading of domestic and foreign futures and options products so as to reduce the number of separate risk disclosure documents required by the Commission, the National Futures Association and other self-regulatory organizations (SROs), including foreign SROs. The CFTC will also review its disclosure requirements concerning futures and options transactions to identify potential means by which new trading systems can be accommodated without creating undue disclosure burdens.

Abstract: The Commission will review its requirements concerning disclosure materials to be provided customers of commodity pool operators with a view toward simplifying the disclosure process, reducing any unnecessary disclosure burdens, and harmonizing the Commission's disclosure requirements with those of other domestic and international regulators. In particular, the Commission is considering whether a bifurcated disclosure format should be permissible for offerings to accredited investors. This would consist of a brief, basic disclosure document provided by the pool operator, with more extensive disclosure materials available upon request. The Commission is also considering whether offerings only to certain categories of accredited investors should be exempt from specific disclosure requirements.

Legal Authority: 7 USC 2; 7 USC 6c; 7 USC 12a

CFR Citation: 17 CFR 32.4

Abstract: The Commission is proposing to amend the trade option exemption to permit trade options on agricultural commodities to the same extent as other commodities. Agricultural trade options would generally be transactions specifically tailored to the commercial needs of the parties involved and consummated on an off-exchange basis. The only options involving agricultural commodities which can currently be traded lawfully are standardized exchange-traded products involving options on futures contracts. The Commission's proposal would therefore permit a greater variety of products to be available to agricultural producers, processors and merchants.

CFR Citation: 17 CFR 155.5

Legal Deadline: None

Abstract: The proposed regulation would restrict, on a phased-in-basis, beginning with an implementation plan, dual trading by floor members in certain markets, subject to stated exceptions. Specifically, a floor broker would be prohibited from (i) trading or placing an order for a futures or option contract for his own account, an account over which he had trading discretion, or an account in which he had a significant interest and (ii) holding or executing an order for a futures or option contract in the same commodity for a customer, during the same trading session, except to the extent permitted by contract market rules. The proposed regulation is intended to promote integrity of futures markets by limiting potential illegal conduct resulting from the ability to trade in two capacities.

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish, twice each year, a regulatory flexibility agenda listing the rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governmental units. In this document, the Commission publishes its semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions expected to be under development or review by the agency during the succeeding 12 months and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATES: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1991.

ADDRESSES: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6980. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (5 U.S.C. 601-612) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the RFA (5 U.S.C. 602) requires each agency to publish, twice each year, a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated which is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking. The regulatory flexibility agenda shall also contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

Additionally, Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or current regulations under review and further states that such an agenda may be combined with the agenda published in accordance with the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The regulatory flexibility agenda published below lists, for a 12-month period, the regulatory activities expected to be under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

Dated: August 19, 1991.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Abstract: On August 8, 1989, William G. Hones petitioned the Commission to amend regulations codified at 16 CFR 1500.18(a)(7) and 1500.86 (a)(5) which ban certain toys called "clacker balls." The petition requests that the Commission modify the definition of the term "clacker balls" in the regulations to specifically exclude certain products which are similar to clacker balls but do not present the same risk of injury.

Abstract: On July 23, 1990, correspondence from Dr. Edward Press requesting development of mandatory safety standards for hot tubs and spas was docketed as a petition for rulemaking. The petition requests the Commission to issue safety standards to address the following risks of injury: drowning of children younger than five years of age, drowning of persons five years of age and older, electrocution, scalds, and infection from microbiological agents. In October 1991, the Commission staff is scheduled to send a briefing package to the Commission concerning the issue of whether to grant or deny the petition.

Abstract: On March 3, 1988, the Commission published an advance notice of proposed rulemaking (ANPRM) to announce its preliminary determination that unreasonable risks of death and injury may be associated with cigarette lighters because they are not sufficiently resistant to operation by children. The Commission staff has developed a test protocol to measure the resistance of lighters to operation by children. That test protocol has been used to determine the child-resistance of some lighters currently on the market. On December 19, 1990, the staff sent a briefing package concerning a proposed standard for child-resistant

lighters to the Commission. The Commission is expected to decide later in calendar year 1991 whether to publish a proposed standard for public comment.

CFR Citation: 16 CFR 1500

Legal Deadline: Final, Statutory, November 18, 1989.

Abstract: In 1988, Congress enacted the Labeling of Hazardous Art Materials Act (LHAMA). This legislation amended the Federal Hazardous Substances Act (FHSA) by providing that the voluntary standard for labeling art materials of the American Society for Testing and Materials designated D-4236 shall be deemed to be a regulation issued by the Commission under provisions of the FHSA. The LHAMA also directed the Commission to issue guidelines to specify criteria for determining when any customary or reasonably foreseeable use of an art material can result in a chronic hazard. On April 17, 1991, the Commission published a proposal to to codify the provisions of the LHAMA and the standard designated ASTM D-4236. The Commission also published proposed rules to explain the principles to be used by the Commission staff in making those determinations and to specify conditions under which an art material would be determined to contain a carcinogen, a developmental or reproductive toxicant, or a neurotoxin. The proposed rules also explain certain principles to be used in evaluating the risk resulting from hazardous art materials. The proposed rules also provide a supplemental definition (cont)

Because the substance of the guidelines specified by the 1988 amendment of the FHSA applies not only to art materials, but also to other materials regulated under the FHSA, the guidelines and supplemental definition are proposed for all materials subject to the FHSA, not exclusively for art materials. The supplemental definition of "toxic" is proposed as a rule to aid in the enforcement of the FHSA in general under the authority of section 10 of the FHSA (15 USC 1269). On July 10, 1991, the Commission published a notice in the Federal Register to extend the comment period until September 30, 1991, and to schedule a public hearing to receive oral presentations on the proposed rules on October 17, 1991.

Abstract: In the Federal Register of October 19, 1990, the Commission published an advance notice of proposed rulemaking to begin a proceeding which may result in the issuance of rules banning certain crib toys associated with risks of strangulation deaths and injuries. Crib toys are toys which are intended to be attached to or near a crib or playpen for use by children younger than two years of age. Since 1973, the Commission has received reports of 51 strangulation or near strangulation incidents associated with crib toys. The Commission staff will prepare a briefing package discussing regulatory options to address risks of strangulation death and injury for consideration by the Commission.

Abstract: The Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608; 104 Stat. 3110) amended section 15 of the Consumer Product Safety Act (CPSA) (15 USC 2064) by adding new requirements for reporting information about the safety of consumer products to the Commission. Before enactment of the Improvement Act of 1990, section 15 of the CPSA provided that every manufacturer, distributor, and retailer of a product who obtains information which reasonably supports the conclusion that the product fails to comply with an applicable consumer product safety rule or contains a defect which could create a "substantial product hazard," as that term is defined by section 15 of the CPSA, shall immediately inform the Commission. The Improvement Act of 1990 added requirements for immediate notification of the Commission by every manufacturer, distributor, and retailer of a consumer product who obtains information which reasonably supports the conclusion that the product fails to comply with a voluntary standard on which the Commission relied in accordance with section 9 of the CPSA (15 USC 2058), or that the product "creates an unreasonable (cont)

CPSC — Proposed Rule Stage

Abstract: The Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608; 104 Stat. 3110) added new reporting requirements to the Consumer Product Safety Act (CPSA) to be codified as section 37 of the CPSA (15 USC 2084). Section 37 of the CPSA requires the manufacturer or importer of a consumer product to report to the Commission if "a particular model of a consumer product" is the subject of three or more civil actions filed in a state or Federal court "for death or grievous bodily injury" which, within a 24-month period, result in a final settlement involving the manufacturer or a judgment for the plaintiff. The reporting requirements of section 37 became effective on January 1, 1991. Since the enactment of the Improvement Act of 1990, the Commission staff has received many inquiries about the interpretation and implementation of the requirements of section 37. In the Federal Register of February 14, 1991, the Commission published a notice which sets forth the reporting requirements of section 37 of the CPSA, and specifies the address to which reports should be sent. On March 19, 1991, the staff (cont)

4442. ● SAFETY STANDARD FOR AUTOMATIC RESIDENTIAL GARAGE DOOR OPERATORS; CERTIFICATION AND RECORDKEEPING REQUIREMENTS

Legal Authority: 15 USC 2063 Consumer Product Safety Act; 15 USC 2065 Consumer Product Safety Act

CFR Citation: 16 CFR 1211

Legal Deadline: None

Abstract: On June 19, 1990, the Commission issued the Safety Standard for Automatic Garage Door Operators in accordance with provisions of section 203 of the Consumer Product Safety Improvement Act of 1990 (Pub. L. 101-608; 104 Stat. 3110). This standard requires that every automatic residential garage door operator manufactured on and after January 1, 1991 must reverse within two seconds of contacting a two-inch test object, the top of which is capable of being compressed. The standard also requires that the door must reopen if the bottom limit switch is not activated within 30 seconds after the control is pressed to start the closing cycle. The Commission staff is preparing drafts of proposed rules to implement the standard by specifying requirements for recordkeeping and certification of products subject to the standard by manufacturers of garage door operators. The staff expects to send a briefing package which includes drafts of the proposed rules to the Commission in November, 1991.

4443. REQUIREMENTS FOR THE SPECIAL PACKAGING OF HOUSEHOLD SUBSTANCES; REVISION OF TEST PROTOCOL FOR CHILD-RESISTANT PACKAGING

Legal Authority: 15 USC 1472 Poison Prevention Packaging Act; 15 USC 1473 Poison Prevention Packaging Act

CFR Citation: 16 CFR 1700.20

Legal Deadline: None

Abstract: On January 19, 1983, the Commission published an advance notice of proposed rulemaking (ANPRM) soliciting comments on ways to amend the existing requirements for child-resistant packaging to improve the effectiveness and efficiency of these requirements. On October 5, 1990, the Commission proposed specific revisions of the child test protocol and the adult test protocol. On March 5, 1991, the Commission published a notice in the Federal Register to extend the period for receipt of written comments on the proposed amendments of the test protocols until July, 1, 1991. This notice also solicited comments on additional changes to the adult test protocol. In January, 1992, the staff expects to transmit a briefing package to the Commission on the issue of whether to issue final amendments of the test protocols.

4444. HOUSEHOLD SUBSTANCES CONTAINING METHYLENE CHLORIDE; STATUS AS HAZARDOUS SUBSTANCES; PROPOSED RULE

Legal Authority: 15 USC 1261 Federal Hazardous Substances Act; 15 USC 1262 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1500.12(a)(2)

Legal Deadline: None

Abstract: On August 20, 1986, the Commission proposed a rule to declare that household products containing methylene chloride are hazardous substances under the Federal Hazardous Substances Act. These products include some paint strippers and spray paints. The Commission's concern arises from animal tests showing that methylene chloride is a carcinogen by inhalation and studies indicating a significant human exposure as a result of reasonably foreseeable use of products containing methylene chloride. The initiation of this rulemaking proceeding granted one part of a petition (HP 85-1) from the Consumer Federation of America. The staff provided an analysis of the comments on the proposed rule to the Commission in June 1987. In August 1987, the Commission determined that there was insufficient controversy over the status of methylene chloride as a hazardous substance; therefore, the Commission suspended the rulemaking and issued a statement of enforcement policy stating the Commission's view that household products that contain methylene chloride and that expose consumers to significant levels of methylene chloride are (cont)

Abstract: On July 2, 1991, the Commission proposed a rule to require child-resistant packaging for certain over-the-counter drug preparations containing ibuprofen. The Commission staff is evaluating comments received in response to the notice of proposed rulemaking. The staff plans to send a briefing package to the Commission in February, 1992, concerning the issue of whether to issue a final rule in this proceeding.

4446. RULE TO BAN INFANT "BEAN BAG" CUSHIONS

Legal Authority: 15 USC 1261 Federal Hazardous Substances Act; 15 USC 1262 Federal Hazardous Substances Act

CFR Citation: 16 CFR 1500

Legal Deadline: None

Abstract: On October 18, 1990, the Commission published an advance notice of proposed rulemaking (ANPRM) to begin a proceeding which could result in a rule to ban infant "bean bag" cushions. These cushions are made from a flexible fabric cover that encloses loose granular material such as polystyrene foam beads. They are promoted for use by children younger than one year of age. These cushions can be flattened so that an infant can lie prone on the cushion, and are capable of conforming to the body or face of an infant. The Commission has received reports of thirty-two deaths and one injury associated with these products. In April 1991, the staff transmitted a briefing package to the Commission forwarding a draft notice of proposed rulemaking to address risks of death and injury associated with infant cushions. On July 16, 1991, the Commission published a proposed rule to ban infant cushions. In December, 1991, the staff is scheduled to transmit briefing package to the Commission on the issue of whether to issue a final banning rule.

Farm Credit Administration

Semiannual Regulatory Agenda

FARM CREDIT ADMINISTRATION (FCA)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Regulations

AGENCY: Farm Credit Administration.

ACTION: Department unified agenda of regulations and review list.

SUMMARY: The Farm Credit Administration (FCA), as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations, which it will have under development and review during the period of October 1991 through April 1992.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Office of General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090, (703) 883-4020, TDD (703) 883-4444.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. The FCA is an independent regulatory agency that is exempt from the provisions of Executive Order 12291. Additionally, FCA regulations, which apply to Farm Credit banks and associations and certain other federally chartered entities, generally do not and will not have a substantial impact on "small entities" as that term is defined in the Regulatory Flexibility Act.

While FCA is an independent agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Dated: August 23, 1991.

Curtis M. Anderson,

Secretary, Farm Credit Administration Board.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations; October 1991

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. The Agenda also provides the CFR citations and legal authorities which govern these proceedings. The Regulatory Flexibility Act (94 Stat. 1167: 5 U.S.C. 605) includes notations on the applicability of the Regulatory Flexibility Act to each item. The Unified Agenda will be published in the **Federal Register** in April and October of each year.

ADDRESSES: Federal Communications Commission, 1919 M Street NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Tom Sullivan, Office of Managing Director, (202) 632-0923.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g., Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "MM Docket 79-164," which indicates that the responsible Bureau is the Mass Media Bureau. When a docket number consists of only five digits (e.g., Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Further Notice of Inquiry (FNOI)

Notice of Proposed Rulemaking (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Further Notice of Proposed Rulemaking (FNPRM)

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking but before the Commission has taken action on the petition.

Report and Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

Donna R. Searcy,
Secretary,
Federal Communications Commission.

Abstract: This proceeding addresses the statutory restrictions which prohibit telephone companies from providing cable television service within their telephone service areas. The FCC has tentatively concluded that the statutory restrictions should be repealed. The Commission solicited comments and will decide whether to recommend to Congress whether the restrictions should be repealed. The Commission also issued an NPRM to modify the standards of affiliation between cable companies and telephone companies.

Abstract: The Commission seeks to develop a record and to solicit comments on the proposed rules. These proposed rules are designed to implement recommendations made by the joint industry/government Advisory Committee on 2 degree satellite spacing; and they will codify basic applications requirements for satellite services. The proposed rules would apply to all entities including small entities who seek authorization under Part 25 of the Commission's rules to construct and operate Fixed-Satellite communications facilities. The proposed rules would establish operational and technical procedures designed to alleviate adjacent satellite interference and may increase the reporting and cost burdens on all satellite licensees. The rules codifying basic applications requirements are codifications of existing policies, will impose no additional burdens, and may, in fact, reduce the burden by eliminating several current requirements. In order to be effective, these rules must apply to all licensees and thus there is no significant alternative.

CFR Citation: 47 CFR 68.4; 47 CFR 68.112

Legal Deadline: Final, Statutory, May 16, 1989. Other, Statutory, July 27, 1989. Hearing Aid Compatibility Act of 1988. Telecommunications Accessibility Enhancement Act of 1988

Abstract: In response to a petition for partial reconsideration of its Order adopted May 4, 1989 dealing with hearing aid compatibility the FCC on April 12, 1990, issued a combined MO&O and FNPRM. The MO&O amends Secs. 68.4 and 68.112 of the rules to require that telephones in common areas of the workplace and all credit card telephones be hearing aid compatible by May 1, 1991. The FNPRM proposes that all workplace, hotel and motel, hospital, and other telephones in "confined areas" not already hearing aid compatible be made so by May 1, 1992.

Legal Deadline: Final, Statutory, July 17, 1991.

Abstract: The Telephone Operator Consumer Services Improvement Act of 1990, Pub. L. No. 101-435, 104 Stat. 986 (1990) (to be codified at 47 USC 226), requires the Commission to conduct a separate rulemaking proceeding on operator service access and pay telephone compensation issues. In the access portion of this proceeding, the Commission must determine whether (a) call aggregators must unblock 10XXX access, or (b) operator service providers (OSPs) must establish an 800 or 950 access method, or (c) both (a) and (b). In the compensation portion of the proceeding, the Commission must decide whether to prescribe compensation for owners of competitive public payphones for calls not routed through their presubscribed OSPs.

Abstract: The Commission is considering the adoption of new regulations involving interstate 900 services which are typically offered to consumers by information providers or service bureaus utilizing the telephone transmission services of interexchange carriers and billing and collection services from local exchange or interchange carriers. Despite existing reforms and enforcement actions, the Commission has continued to receive numerous complaints from consumers regarding such problems as excessive rates, deceptive rate information, poor service quality, child- oriented programming and unauthorized use. The House of Representative Subcommittee on Telecomm. and Finance conducted an oversight hearing on the 900 services industry and, separately, asked the Commission to assess the state of the industry, identify the type of abuses and recommend a course of action to address industry problems. Thus, this rulemaking proceeding will address concerns regarding fraud, consumer protection and privacy and propose appropriate corrective regulations.

4513. IN THE MATTER OF AN AUTOMATIC TRANSMITTER IDENTIFICATION SYSTEM (ATIS) FOR RADIO TRANSMITTING EQUIPMENT (GEN. DOC. #86-337)

Significance: Agency Priority

Legal Authority: 47 USC 154(i); 47 USC 154(j); 47 USC 302; 47 USC 303; 47 USC 403

CFR Citation: 47 CFR 83; 47 CFR 87; 47 CFR 90; 47 CFR 95

Legal Deadline: None

Abstract: This proceeding looks to establish a means by which all radio emissions might be encoded with a distinct automatically transmitted identifier. Such a system would benefit the orderly management of the spectrum. It would be especially effective in preventing bogus maydays on VHF marine channels, phantom controllers on aircraft channels and general harassment on police and fire channels. While safety channels offer the most dramatic examples of need for automatic identification, other services, including all the land, mobile, and amateur services, have similar needs.

Semiannual Regulatory Agenda

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation (FDIC) is hereby publishing items for the October 1991 regulatory agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

The FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

The Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA), which was enacted on August 9, 1989, contains reforms that significantly restructure Federal deposit insurance and the regulation of financial institutions. As a consequence, many of the regulations included in this agenda are in response to FIRREA.

Interested persons may petition the FDIC for the issuance, amendment, or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Dated: August 15, 1991.
Federal Deposit Insurance Corporation.

Hoyle L. Robinson,
Executive Secretary.

4546. CONTRACTS ADVERSE TO SAFETY AND SOUNDNESS OF INSURED DEPOSITORY INSTITUTIONS

Legal Authority: 12 USC 1818; 12 USC 1819; 12 USC 1831g

CFR Citation: 12 CFR 334

Legal Deadline: None

Abstract: The proposed rule would implement section 225 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA"), which requires the FDIC to prescribe regulations as may be necessary to prevent insured depository institutions from entering into contracts that adversely affect their safety and soundness.

The rule is proposed in two stages. The first stage is a notice of proposed rulemaking on adverse contracts with outside vendors. The second stage is an advance notice of proposed rulemaking with request for comment on how to deal with contracts with non-depository affiliates.

Legal Authority: 12 USC 1813; 12 USC 1819

CFR Citation: 12 CFR 354

Abstract: The FDIC issued for public comment a proposed regulation expanding the definition of the term "deposit." The proposed rule would find that a bank's liability on a promissory note, bond, acknowledgement of advance, or similar obligation that is issued or undertaken by the insured bank as a means of obtaining funds is a deposit liability for insurance and assessment purposes.

4550. ASSESSMENT OF FEES UPON ENTRANCE TO OR EXIT FROM THE BANK INSURANCE FUND OR THE SAVINGS ASSOCIATION INSURANCE FUND

Legal Authority: 12 USC 1815(d); 12 USC 1819

CFR Citation: 12 CFR 312

Legal Deadline: None

Abstract: The FDIC adopted interim rules prescribing entrance and exit fees for insured depository institutions participating in certain "conversion transactions." Conversion transactions involve transfers between the two deposit insurance funds: the Bank Insurance Fund ("BIF") and the Savings Association Insurance Fund ("SAIF"). One rule set entrance fees for "SAIF-to-BIF" conversion transactions. Another rule established the fee structure for "BIF-to-SAIF" conversion transactions. A third rule prescribes the exit fee and amends the previously prescribed entrance fee for "SAIF" to "BIF" conversion transactions. On July 1, 1991, a final rule was published in the Federal Register which partially revised the method for computing entrance fees. The method for computing exit fees was

unaffected by that final rule. It is expected that a final rule prescribing exit fees and incorporating other changes will be issued in the near future.

CFR Citation: 12 CFR 338

Legal Deadline: None

Abstract: This rule amends section 338 of the FDIC's Fair Housing regulations to eliminate overlapping recordkeeping requirements by revising the FDIC's log sheet to conform it to the HMDA loan application register. The loan application register will satisfy the log requirement, provided the register is updated on a timely basis. This removes a duplicative recordkeeping requirement for those banks that currently must maintain both the log and the register.

Abstract: The FDIC amended its regulations to provide that a savings association that has become a State chartered savings bank insured by the SAIF will continue to be subject to the same activity and investment restrictions and loan to one borrower limits that were applicable to it prior to its conversion. The converted savings bank is required to provide the FDIC with the same prior notice before acquiring or establishing a subsidiary. Also, the savings bank's investment in, and extensions of credit to, its subsidiaries is deducted from capital to the same extent as it would have been had the bank not converted. In addition, the regulation requires any undercapitalized savings association that converts to a savings bank to submit a capital plan to the FDIC within thirty days of conversion.

CFR Citation: 12 CFR 308

Legal Deadline: Final, Statutory, August 9, 1991.

Abstract: Section 916 of FIRREA requires that the five Federal financial institutions regulatory agencies develop a set of uniform rules and procedures for administrative hearings. Section 916 further requires that the agencies promulgate provisions for summary judgment rulings where there are no disputes as to the material facts of a case. This regulation makes uniform those rules that pertain to at least four of the five agencies. In addition, it sets out "local rules" particular to the FDIC addressing other rules of practice and procedure.

4573. COMMUNITY INVESTMENT PROGRAM

Significance: Agency Priority

Legal Authority: 12 USC 1422a; 12 USC 1422b; 12 USC 1430(i)

CFR Citation: 12 CFR 961

Legal Deadline: None

Abstract: Pursuant to section 721 of the Financial Institutions Reform, Recovery and Enforcement Act of 1989, Pub. L. 101-73, 103 Stat. 423, the Federal Home Loan Banks must establish a Community Investment Program ("Program") which will provide funds, through Bank advances (loans) to a Bank's member institutions at interest rates equal to interest rates on Federal Home Loan Bank consolidated bonds or notes having comparable maturity dates with the advances. These advances will be used by the member institutions to provide funding for community-oriented development projects or housing. These regulations will continue the commitment of the Federal Home Loan Banks to community development lending.

Significance: Agency Priority

Legal Authority: 12 USC 1430; 12 USC 1422b

CFR Citation: 12 CFR 935.1; 12 CFR 935.6; 12 CFR 935.7

Legal Deadline: None

Abstract: The Finance Board proposes to amend its regulations pertaining to advances (loans) made by the Federal Home Loan Banks ("Banks") to their member institutions. The proposed regulations will carry forward certain of the prior policy statements and regulations and also, implement new provisions of the Financial Institutions Reform, Recovery and Enforcement Act of 1989 ("FIRREA"), Pub. L. 101-73, 103 Stat. 183 (1989). However, long-term advances may only be made for the purposes of providing funds for residential housing finance. Advances will be secured by eligible collateral consisting of (1) fully disbursed, whole first mortgages on improved residential property, or securities representing such mortgages; (2) securities issued or guaranteed by the United States Government or any agency thereof; (3) deposits in a Federal Home Loan Bank; and (4) certain other real estate-related collateral. Advances available to members that are not Qualified Thrift Lenders, pursuant to FIRREA, are limited to advances for the purpose of residential housing finance.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Commission anticipates having under consideration during the period from October 1, 1991, to September 30, 1992, actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: Joseph C. Polking, Secretary, 1100 L Street NW., Washington, DC 20573; (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section.

The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's unified regulatory agenda. The agenda does not necessarily include all petitions for rulemakings which are under staff review.

In addition, the Commission maintains a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda. This will be made available to the public, including the press and interested persons.

Joseph C. Polking,

Secretary.

Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from October 1, 1991, through April 1, 1992. The next semiannual agenda will be published in April 1992.

DATES: Comments about the form or content of the agenda may be submitted any time during the next 6 months.

ADDRESSES: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its October 1991 agenda as part of the October 1991 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next 6 months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous agenda and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

4603. REGULATION: E - ELECTRONIC FUND TRANSFERS

Legal Authority: 15 USC 1693 et seq Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Legal Deadline: None

Abstract: The Board is conducting a review of Regulation E, which implements the Electronic Fund Transfer Act, and establishes the basic rights, liabilities, and responsibilities of consumers who use electronic fund transfer services and of financial institutions that offer these services (whether or not these institutions hold the consumer's account). The review will consider whether any provisions of the regulation are in need of updating, whether any substantive changes are necessary because of technological and other developments, and whether special rules to govern the electronic delivery of government benefits to recipients should be proposed. The Board will also consider whether to make any legislative recommendations for statutory changes.

Public comment will be requested on any regulatory proposals that may be developed following the review. It is not anticipated that the revisions would have a significant economic impact on a substantial number of small banks.

Legal Authority: 12 USC 1604 Truth in Lending Act, as Amended

CFR Citation: 12 CFR 226

Legal Deadline: None

Abstract: During the next three months the Board will consider issuing for public comment revisions to Regulation Z relating to home equity lines of credit. In July 1991, the U.S. Court of Appeals for the District of Columbia issued a decision in Consumers Union v. Federal Reserve Board. The Court remanded to the Board for further consideration two issues dealing with disclosure of the discounted rate and payment examples for a creditor's home equity line of credit. It is not anticipated that any revisions will have a significant impact on a substantial number of small institutions.

Legal Authority: 12 USC 465

CFR Citation: 12 CFR 204

Legal Deadline: None

Abstract: In April 1991, the Board published for comment several proposed amendments to Regulation D, as well as a number of proposed interpretations concerning reserve requirements (56 FR 15522, April 17, 1991). The proposed amendments and

interpretations are intended primarily to close loopholes in reserve requirements on transaction accounts, and concern the following types of transactions or accounts: (1) teller's checks; (2) time deposit open accounts; (3) certain sweep arrangements involving transaction accounts and commingled time deposits; (4) multiple or linked money market deposit accounts ("MMDAs"); (5) netting of trust balances in commingled transaction accounts; and (6) certain uses of "due from" or "cash items in the process of collection" deductions.

It is not expected that the proposals will have a significant economic impact on a substantial number of small institutions. Following review of the public comments, the Board is expected to take further action within the next two months.

Abstract: In May 1991, the Board issued for public comment amendments to Regulations G and T to accommodate deposits of margin stock at clearing agencies for futures markets regulated by the Commodity Futures Trading Commission or the Securities and Exchange Commission (56 FR 25641, June 5, 1991). The amendments will allow a clearing agency to accept margin stock from its clearing members to meet margin obligations in connection with financial and nonfinancial futures and options positions without requiring the clearing agency to register with the Board under Regulation G. Such treatment has already been permitted in the securities area for The Options Clearing Corporation.

Following review of the public comments, the Board is expected to take further action within the next two months It is not anticipated that this proposal will affect a significant portion of the overall lending activities of a substantial number of small firms.

Abstract: In May 1991, the Board issued for public comment amendments to Regulations G and U to permit lenders subject to these regulations to transfer a margin loan between them without treating the transaction as creating a new extension of credit (56 FR 23252, May 21, 1991). The regulations currently permit a transfer only between lenders subject to the same regulation. Legal Authority: 12 USC 3331 et seq

CFR Citation: 12 CFR 225, Subpart G

Legal Deadline: None

Abstract: In November 1990, the Board issued for public comment a proposed amendment to its real estate appraisal rule that would lower the dollar amount of transactions below which a certified or licensed appraiser would not be required (55 FR 49057, November 26, 1990). Currently, this amount is $100,000; the Board sought comment on a proposal to lower it to $50,000.

This change, if adopted, would be expected to increase the costs of federally related transactions having a transaction value between $50,000 and $100,000. These costs would either have to be absorbed by the regulated institutions or be passed on to their customers. Following review of the public comments, the Board is expected to take further action on this proposal within the next six months.

Abstract: In December 1990, the Board, along with the other Federal financial institutions regulatory agencies, issued an interim common rule and request for public comment regarding those applicable provisions of the Uniform Standards of Professional Appraisal Practice ("USPAP") that are required to be incorporated into each agency's real estate appraisal rules (55 FR 53609, December 31, 1990). The provisions were published as an interim rule because the agencies' existing appraisal regulations already require compliance with the USPAP, as mandated by Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

The USPAP was undergoing revision when the agencies initially promulgated their appraisal regulations. This proposal will permit the agencies to consider and receive comment on the revisions to USPAP. It is not expected that the proposal will have a significant economic impact on a substantial number of small entities. Following review of the public comments, the Board is expected to take further action on this proposal within the next six months.

CFR Citation: 12 CFR 210

Legal Deadline: None

Abstract: In January 1991, the Board requested comment on a proposed amendment to Regulation J to require paying banks that receive presentment of checks from a Federal Reserve Bank to make the proceeds of settlement for those checks available to the Reserve Bank by as early as one hour after receipt of the checks (56 FR 3047, January 28, 1991). This amendment would be necessary to implement the proposed daylight overdraft measurement procedure under the Board's payments system risk reduction program. (See Docket Number: R-0721.)

It is not expected that this proposal would have a significant economic impact on a substantial number of small entities because small entities do not usually incur large daylight overdrafts, and many small entities are exempt from filing for an overdraft cap and would be exempt from pricing under the Board's proposed pricing program.

Following review of the public comments, the Board is expected to take further action by year-end.

Legal Authority: 12 USC 1843 Bank Holding Company Act; 12 USC 1844(b) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: A provision of Regulation Y permits a State bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under State law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under Federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

In December 1988, the Board requested public comment regarding whether this rule, as it applies to nonbanking companies owned by State banks in a holding company system, continues to be valid and appropriate in light of enactment of the (cont)

Additional Information: ABSTRACT CONT: Garn-St Germain Act and certain recent court decisions (53 FR 48915, December 5, 1988). The Board also held an informal public hearing on this matter on April 7, 1989. The Board has not proposed revising its current rule regarding subsidiaries of national banks in a holding company. A determination to reverse the Board's State bank rule could have an adverse impact on small banks that are subsidiaries of holding companies because they might be required to restructure their nonbanking activities or to take other action.

The issue of the validity of the Board's State bank rule was recently raised in litigation involving the permissibility of insurance activities of a nonbank subsidiary of Citicorp's Delaware bank. In that case, the U.S. Court of Appeals for the Second Circuit found that the Bank Holding Company Act does not apply to nonbank companies owned by holding company banks. That decision is currently the subject of an appeal to the U.S. Supreme Court.

The Board has not determined what further action is appropriate.

Abstract: In December 1988, the Board requested public comment on an application by a bank holding company to provide armored car transportation services to nonaffiliated customers and on whether the proposed armored car activities may be deemed to be closely related to banking and a proper incident thereto for purposes of section 4(c)(8) of the Bank Holding Company Act (53 FR 50292, December 14, 1988).

The National Armored Car Association submitted comments in opposition to the application and requested a hearing on whether the proposal would meet section 4(c)(8) of the Bank Holding Company Act. A formal, public hearing before a hearing officer was held on June 16 and July 11, 1989, at the offices of the Board in Washington, D.C. On January 23, 1990, the hearing officer recommended that the application be denied, based on his determination that the proposed armored car services were not closely related to banking under section 4(c)(8). On June 18, 1990, the Board reversed this finding and remanded the case to the hearing officer for a recommended decision on whether the proposed services were a "proper incident" to banking and (cont)

Abstract: In February 1990, the Board approved issuing for public comment a proposed regulation, which implements section 914 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, requiring banks and bank holding companies to provide notice to the Federal Reserve System 30 days before adding any individual to the institution's board of directors or employing any individual as a senior executive officer under certain circumstances (55 FR 6787, February 27, 1990). Notice would be required if the institution is failing to meet minimum capital standards or is otherwise in a troubled condition, has undergone a change in control within the past two years, or has received a bank charter within the past two years. The regulation defines "senior executive officer," "troubled condition," and "change in control."

The proposal is not expected to have a significant economic impact on a substantial number of small business entities. State member banks and bank holding companies will be affected if they meet one of the criteria that triggers the notice requirements. Abstract: In May 1990, the Board approved issuing for comment a proposal to amend the provision in Regulation Y governing leasing transactions by bank holding companies to relax the limitation on reliance on the residual value of leasing property (55 FR 22348, June 1, 1990). The Board is proposing to raise the maximum estimated residual value of leased personal property on which bank holding companies may rely for their compensation in recovering the full cost of leasing transactions from 20 percent to up to 100 percent of the acquisition cost of the leased property. Section 108 of the Competitive Equality Banking Act of 1987 granted similar authority to national banks subject to a volume limitation. These higher residual value leasing transactions by bank holding companies would also be subject to certain volume limitations and would remain subject to the prudential limitations currently set forth in Regulation Y. The proposal is not expected to have a significant economic impact on a substantial number of small business entities. Following review of public comments, the Board is expected to take further action by year-end 1991.

Abstract: In June 1990, the Board approved issuing for comment a proposed revision to a Board interpretation of the Glass-Steagall Act and the Bank Holding Company Act that would permit bank holding companies to broker and recommend shares of investment companies that are advised by a bank holding company or its subsidiaries (55 FR 25849, June 25, 1990). The revision would permit bank holding companies the authority to perform greater services for investment companies and brokerage customers. The proposal would enable bank holding companies to enhance competition in the brokerage industry by clarifying permissible activities for bank holding companies.

The proposal is not expected to have a significant economic impact on a substantial number of small business entities. Following review of the public comments, the Board is expected to take further action within the next three months.

Legal Authority: 12 USC 4008

CFR Citation: 12 CFR 229

Legal Deadline: None

Abstract: In February 1991, the Board published for comment a proposed amendment to Regulation CC to require paying banks to provide same-day settlement for checks presented by 8:00 a.m. local time at specified locations (56 FR 4743, February 6, 1991). The proposal would eliminate presentment fees for these checks and thereby facilitate their collection, consistent with the provisions of the Expedited Funds Availability Act.

As a secondary effect of the proposal, small banks may experience increased check collection fees, over the long run, as volume shifts from the Federal Reserve to the private sector. However, because the primary purpose of the proposal is to increase the efficiency of the check collection process, to exclude small banks from the requirement of making same-day settlement would be counter to the chief objective of the proposal.

Abstract: In June 1989, the Board requested comment on several proposals that would modify its payments system risk reduction program (54 FR 26090, June 21, 1989). The proposals concerned pricing and measurement of daylight overdrafts, net debit caps, measures of capital (R-0668), book-entry securities transactions (R-0669), and foreign bank agencies and branches (R-0670).

In May 1990, the Board adopted in final form those elements of its risk reduction policy concerning net debit caps, measures of capital, book-entry securities transactions, and foreign bank agencies and branches (55 FR 22087, May 31, 1990).

In January 1991, the Board issued a revised proposal on measuring daylight overdrafts (see Docket Number: R-0721). The Board expects to implement pricing when the measurement rules are finalized.

In addition, in March 1989, the Board requested comment on changes in the way the Federal Reserve Banks treat automated clearing house transactions (Docket R-0661, 54 FR 8822, March 2, 1989). Abstract: In May 1990, as part of its payments system risk reduction program, the Board requested comment on a proposed risk reduction policy that would prohibit bankers' banks and Edge corporations from incurring funds or book-entry overdrafts on Fedwire (55 FR 22086, May 31, 1990). The Board proposed that Reserve Banks assess a penalty fee when these or other institutions with imposed zero caps incur inadvertent daylight or overnight overdrafts on Fedwire.

It is not expected that these proposals would have a significant economic impact on a substantial number of small entities because they do not usually participate in large-dollar wire transfer systems. Furthermore, this proposal is limited to a small subset of Fedwire participants.

Abstract: In January 1991, the Board requested comment on a proposed method for posting debits and credits to depository institutions' accounts at Federal Reserve Banks in order to measure daylight overdrafts accurately under the Board's payments system risk reduction program (56 FR 3098, January 28, 1991). Accurate measurement of daylight overdrafts will be necessary in order to assess fees for daylight overdrafts, which the Board anticipates implementing in the future. The overdraft measurement proposal is a revision of the proposal issued for comment in June 1989 (54 FR 26090, June 21, 1989).

It is not expected that this proposal would have a significant economic impact on a substantial number of small entities because small entities do not usually incur large daylight overdrafts, and many small entities are exempt from filing for an overdraft cap and would be exempt from pricing under the Board's proposed pricing program.

Abstract: In October 1990, the Board approved issuing for comment proposed modifications and clarifications to its risk-based capital guidelines which will: (1) ensure that certain off-balance sheet credit exposures, particularly sales of residential mortgages with recourse, are adequately captured in the risk-based capital framework; (2) clarify certain provisions of the guidelines that call for Board approval before any redemption of perpetual preferred stock; (3) ensure consistency with the Federal Reserve's general treatment of goodwill and with provisions contained in the Financial Institutions, Reform, Recovery, and Enforcement Act of 1989; and (4) assign claims on a country's central bank to the same risk weight category as claims on the country's central government.

Section 3(b) of the International Banking Act of 1978 requires that Board review and revise Subpart A of Regulation K every five years, beginning in 1979.

Abstract: In July 1990, the Board approved issuing for comment revisions to Regulation K in a number of areas dealing with the U.S. and foreign operations of Edge and Agreement corporations, member banks, bank holding companies, and foreign banking organizations. In June 1991, following review of the public comments, the Board adopted revisions to expand the existing authority of U.S. banking organizations to engage in underwriting and dealing in equity securities outside the United States; increase the current dollar limits under which U.S. banking organizations may make investments abroad without prior notice to the Board; clarify the portfolio investment authority under which U.S. banking organizations may make limited equity investments in any type of company outside the United States; permit Edge corporations to provide domestic banking services, including loans, to foreign persons and governments; expand the range of permissible activities for U.S. banking organizations abroad to include futures commission merchant activities and life insurance underwriting; modify the authority for debt-for-equity investments, including permitting a cash component to (cont)

Abstract: In December 1989, the Board issued for public comment revisions to Regulation P, the regulation which implements the Bank Protection Act of 1968, and establishes minimum security standards for Federal Reserve Banks and for State member banks. Following review of public comments, the Board, in March 1991, approved revisions to the regulation (56 FR 13069, March 29, 1991). The revisions remove sections outdated by technological changes and reorganize and shorten the regulation for simplicity and clarity. It is not anticipated that the revised regulation will have a significant impact on a substantial number of small banks.

Legal Authority: 12 USC 2901 et seq

CFR Citation: 12 CFR 228

Legal Deadline: Final, Statutory, July 1, 1990.

Abstract: In June 1990, the Board (along with the Department of the Treasury, Office of the Comptroller of the Currency, Federal Deposit Insurance Corporation, and the Office of Thrift Supervision) issued a temporary rule amending Regulation BB (and the other agencies' respective regulations) to implement changes in the Community Reinvestment Act contained in Title XII of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989.

Following review of public comments, the Board, in June 1991, adopted a final rule establishing procedures applicable to State member banks governing public access to CRA Performance Evaluations and CRA ratings assigned by the Federal Reserve during the examination process (56 FR 26901, June 12, 1991). It requires State member banks to place their CRA Performance Evaluation and CRA ratings in their public comment file (which they are required to maintain under existing regulations) within 30 business days of receipt. State member banks must make the evaluation and rating available for public inspection and provide copies of the evaluation to interested parties upon (cont)

4625. RULES OF PRACTICE FOR HEARINGS (DOCKET NUMBER: R-0733)

Legal Authority: PL 101-173, Sec 916

CFR Citation: 12 CFR 263

Legal Deadline: Final, Statutory, August 9, 1991.

Abstract: In June 1991, the Board requested public comment on revisions to its rules regarding administrative hearings. Section 916 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 requires that the Federal banking agencies and the National Credit Union Administration Board jointly develop a set of uniform rules and procedures for administrative hearings, including provisions for summary judgment rulings where there are no disputes as to material facts of the case.

Following review of the public comments and in consultation with affected agencies, the Board adopted revisions to its rules in substantially the form proposed (56 FR 38048, August 9, 1991). The revisions are not expected to have a significant economic impact on a substantial number of small entities.

FEDERAL TRADE COMMISSION

16 CFR Ch. I

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of the Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), and section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected date reflects an assessment by the FTC staff of the likelihood that the specified event will occur during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the notation of projected events in this agenda.

Several agenda items concern rulemaking proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding is likely to have a significant economic impact on such entities will depend upon the Commission's final determinations respecting the need for and the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents the judgment of Commission staff based upon information now available. These views should not be regarded as a final staff position nor should they be attributed to the Commission itself. The Commission will independently address the issues presented on the rulemaking record in each proceeding.

Agenda items include the projected timing of certain future actions. In most instances, the dates of future events are listed by month, not by a specific day. Acquisition of new information, change of circumstances, or changes in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the agency contact person listed for each particular proceeding.

By direction of the Commission.

Donald S. Clark,

Secretary.

4626. MAIL ORDER MERCHANDISE

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Legal Deadline: None

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping dates or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. On October 11, 1989 (cont)

The Notice of Proposed Rulemaking was published on November 28, 1989. The deadline for filing written comments was January 29, 1990. Public hearings were held on March 28, 1990 and April 19, 1990. The record closed on June 15, 1990. The staff report was placed on the public record on July 19, 1991. It recommends that the Commission amend the rule to cover telephone order merchandise and change the definition of "properly completed order" as proposed. The Presiding Officer will make a recommendation based on the record and on the staff report. Thereafter, interested parties will be invited to comment.

4627. FRANCHISE RULE

Legal Authority: 15 USC 41 et seq, Federal Trade Commission

CFR Citation: 16 CFR 436

Legal Deadline: None

Abstract: On December 21, 1978, the Commission issued a trade regulation rule applicable to franchises and other business opportunity ventures. The franchise rule took effect on October 21, 1979. The rule requires franchisors to give pre-sale disclosures to prospective investors before they pay money or become legally bound to pay. The disclosures provide material information and are designed to assure that potential investors have the information they need to investigate the franchise offer so they can make an informed investment decision. The Commission is considering whether to amend its trade regulation rule concerning franchises and business opportunity ventures. In particular, the Commission is considering whether to amend the rule's earnings claim and preemption provisions. On February 5, 1991, the Commission deferred this decision and continues to seek academic and other studies of the impact of streamlined earnings claim disclosure requirements. The record will be held open for receipt of this evidence and related comments until August 6, 1992.

Abstract: The Funeral Industry Practices Rule, which became fully effective on April 30, 1984, seeks to increase consumer access to accurate information about prices and legal requirements prior to and at the time of purchase of funeral goods and services. The Rule: (1) requires funeral directors to provide consumers with written itemized pre-sale disclosures; (2) prohibits misrepresentation of legal and cemetery requirements and the preservative or protective value of embalming, caskets, and vaults; (3) prohibits funeral directors from requiring a casket for cremations, or any other tie-in arrangements; (4) prohibits funeral directors from charging for goods and services not specifically ordered, such as embalming, unless required by law; and (5) requires funeral directors to give, on request, price information over the telephone. The Rule provides that no later than four years after its effective date, the Commission will begin a rulemaking proceeding to determine whether the Rule should be amended or terminated. (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The Holder-In-Due Course Rule affects many sales that are financed by closed-end or open-end consumer credit; therefore, it may have a significant effect on a substantial number of small entities. The Commission has solicited comments and data on this issue and, if the Rule has had an effect, whether it should be amended to minimize the kinds of costs the Rule has imposed on small entities, how the Rule has affected the availability and cost of credit for small entities and how creditors and sellers have adapted to the Rule. 4630. REVIEW OF THE PREMERGER NOTIFICATION RULES AND REPORT FORM

Significance: Agency Priority

Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801 to 803

Legal Deadline: None

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers

or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if consummated, violate the antitrust laws. These rules are continually reviewed in order to improve the program's effectiveness and reduce the paperwork burden on the business community. The Commission plans to propose modifications to the Premerger Notification and Report form during the next fiscal year. In September 1985, The Commission proposed to amend the Rule's treatment of acquisition (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419

Legal Deadline: None

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in broadcast and print advertisements, as well as in point of sale information. In January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an Advance Notice of Proposed Rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requested public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

Legal Authority: Sec 324 of the Energy Policy and Conservation Act; PL 94-163 (1975)

CFR Citation: 16 CFR 305

Legal Deadline: None

Abstract: The purpose of the Energy Policy and Conservation Act is to enable consumers to conserve energy by comparing the energy use of competing appliances and use that information in purchasing decisions. To effect this purpose, the statute requires the Commission to issue a labeling rule prescribing the disclosure of the estimated annual cost of operation (or another measure of energy use) for at least 13 categories of major household appliances. The statute also requires that the disclosures be based on standardized test procedures prescribed by the Department of Energy ("DOE"). In 1979, the Commission promulgated the Appliance Labeling Rule, which covers eight appliance categories: (1) refrigerators, refrigerator-freezers and freezers; (2) dishwashers; (3) clothes washers; (4) water heaters; (5) room air conditioners; (6) furnaces; (7) central air conditioners and heat pumps; and (8) fluorescent lamp ballasts. 4634. INFORMAL DISPUTE SETTLEMENT PROCEDURES

Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 703

Legal Deadline: None

Abstract: The Magnuson-Moss Warranty Act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. To assess whether any changes were needed, the Commission conducted a regulatory negotiation process. That process did not result in a consensus on rule revisions. On April 11, 1988, the FTC received a petition from the Motor Vehicle Manufacturers Association and the Automobile Importers Association to amend this rule to preempt certain state lemon laws. On June 13, 1991, the Commission notified the petitioners of

its conclusion that amending Rule 703 would not be in the public interest and of its decision to deny the petition to initiate a rulemaking proceeding. After analyzing (cont)

INTERSTATE COMMERCE COMMISSION (ICC)

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. 420; Sub-No. 21]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to instructions from OMB issued to implement the provisions of section 5 of Executive Order 12291 concerning regulatory agendas, the Commission is publishing an agenda of: (1) Current and projected rulemakings and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: A list of proceedings appears below containing information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda also identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget, which is to be published in a single issue of the **Federal Register** in October 1991. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal Government's current regulatory plans and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: August 12, 1991.
By the Commission, Chairman Philbin, Vice Chairman Emmett, Commissioners Simmons, Phillips, and McDonald.

Sidney L. Strickland, Jr.,

Secretary.

CFR Citation: 49 CFR 1039

Legal Deadline: None

Abstract: The Commission proposes to exempt certain market development activities from the anti-rebating provisions of the Interstate Commerce Act, commonly referred to as the Elkins Act. The proposal would permit railroads to engage in these activities without fear of prosecution. The exemption would apply only to pre-movement, non-transportation activities; subsequent traffic movements would continue to be regulated to the extent they are today.

CFR Citation: 49 CFR 1033; 49 CFR 1039

Legal Deadline: None

Abstract: Acting on a request by rail carriers and car leasing companies, the Commission proposes to deprescribe car-hire rates over a 10-year period. The Commission also requests comments on a petition seeking to exempt from 49 USC 10706, which accords rail carriers the right to establish rates by independent action, a proposed rule requiring arbitration of car-hire rates not negotiated successfully bilaterally. Under the proposal, new "railroad-marked" freight cars would be deprescribed one year after the rules take effect, and carriers would be allowed to designate 10 percent of their existing fleet each year until all cars are deprescribed. During the 10-year transition period, prescribed car-hire rates would be frozen at their 1990 levels.

CFR Citation: 49 CFR 1011; 49 CFR 1160; 49 CFR 1181; 49 CFR 1186

Legal Deadline: None

Abstract: This proceeding was instituted to redefine the Commission's policy governing safety fitness standards in motor carrier licensing and finance proceedings to render them more consistent with Department of Transportation safety rating standards and recent statutory changes, more in keeping with industry norms, and more administratively manageable. The Commission proposed to revise its safety policy to restrict only "Unsatisfactory"-rated carriers from receiving operating authority in the licensing and finance dockets. The revised policy as proposed would permit unrated and "Conditional"-rated applicants, including those seeking passenger and hazardous materials authority, to receive operating authority without one-year term limitations.

Legal Authority: 49 USC 10321; 49 USC 10713; 5 USC 553

CFR Citation: 49 CFR 1313

Legal Deadline: None

Abstract: The ICC proposes to preclude the amendment of any contract more than 90 days after its expiration date and to require that contracts be amended to reflect any automatic extensions of expiration dates. The ICC is experiencing a problem storing the large volume of confidential rail contracts filed by carriers pursuant to section 10713 of the Interstate Commerce Act (49 USC 10713). The problem results primarily from our inability to determine from our files which contracts are active or may be reactivated, and which have been permanently terminated and can be stored off-site. The proposed action will alleviate the Commission's storage problem for confidential rail contracts and will significantly enhance the integrity of the Commission's files, while continuing to provide carriers and shippers with what should be more than adequate flexibility.

Abstract: The ICC lifted a stay it had previously imposed in this proceeding in order to consider petitions for reconsideration. The result was that regulations which were previously adopted at 54 FR 6403 became effective for rail carriers only. Rail carriers are now permitted to file electronic tariffs as an alternative to printed tariffs. Rail carriers are required to accompany their electronic tariffs with identical printed tariffs until further notice. With respect to other modes, the effective date of the adopted regulations is stayed pending consideration of a petition to reopen.

NATIONAL CREDIT UNION ADMINISTRATION (NCUA)

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of July 31, 1991. NCUA will also include this agenda in the Unified Agenda of Federal Regulations.

DATES: This information is current as of July 31, 1991.

ADDRESSES: National Credit Union Administration, 1776 G Street NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: For each regulation listed, the person(s) named in the listing at the above address or listed telephone number.

SUPPLEMENTARY INFORMATION: The purpose of this agenda is to enable credit unions and the public to follow regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The agenda is divided into three parts: (1) Actions completed since the last agenda; (2) actions proposed but not completed; and (3) actions planned but not yet proposed by the NCUA Board.

The agenda is published pursuant to NCUA Interpretive Ruling and Policy Statement Number 87-2 ("Developing and Reviewing Government Regulations," 54 FR 35231; September 18, 1987). Executive Order No. 12291 does not require independent executive agencies such as NCUA to publish a regulatory agenda, but NCUA has voluntarily decided to do so by including this agenda in the Office of Management and Budget's next publication of its Unified Agenda of Federal Regulations.

Approved by the NCUA Board on August 13, 1991.

Becky Baker,

Secretary of the Board.

Additional Information: In 1988, the NCUA Board approved a rule which was submitted to the Office of Government Ethics (OGE) for approval. The rule was reviewed by OGE and recommended changes were made. In April 1989, the Board adopted a final package, designated as Part 796, which was to become final after OGE adopted its own rules and NCUA obtained approval of Part 796 as a final regulation. Changes introduced by the Ethics Reform Act of 1989 required OGE to further revise its rules, which it published as a proposed rule on July 23, 1991 (56 FR 33778). The comment period ends on September 20, 1991. After the OGE adopts a final rule, the NCUA will proceed with its rule.

Nuclear Regulatory Commission

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION (NRC)

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual regulatory agenda in accordance with Public Law 96-354 "The Regulatory Flexibility Act" and Executive Order 12291 "Federal Regulation." The agenda is a compilation of all rules on which the NRC has recently completed action or has proposed or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual agenda on April 22, 1991 (56 FR 17002).

ADDRESSES: Comments on any rule in the agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555; Attention: Docketing and Service Branch. Comments may also be hand delivered to the One White Flint North Building, 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m., Federal workdays. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the agenda.

The agenda and any comments received on any rule listed in the agenda are available for public inspection and copying at a cost of 10 cents per page at the Nuclear Regulatory Commission's Public Document Room, 2120 L Street NW. (Lower Level), Washington, DC 20555. Single copies of the NRC quarterly agenda can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Post Office Box 37082, Washington, DC 20013-7082. Customers may call (202) 275-2060 or (202) 275-2171.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this agenda, contact Michael Lesar, Chief, Rules Review Section, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone (301) 492-7758. Persons outside the Washington, DC, metropolitan area may call, toll-free: (300) 368-5642. For further information on the substantive content of any rule listed in the agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the agenda is only required semiannually, in April and October, the NRC has chosen to update and publish its agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual agenda on April 22, 1991 (56 FR 17002).

Within each group, the rules are ordered according to the Regulation Identifier Number (RIN).

The information in this agenda has been updated through August 23, 1991. The date under the heading "Timetable," for the next scheduled action, is the date the rule is scheduled to be published in the **Federal Register**. The date is considered tentative and is not binding on the Commission or its staff. The regulatory agenda is intended to provide the public early notice and opportunity to participate in the NRC rulemaking process. However, the NRC may consider or act on any rulemaking even though it is not included in the regulatory agenda.

Rulemakings Approved by the Executive Director for Operations (EDO)

The EDO initiated a procedure for review of the regulations being prepared by staff offices that report to him to ensure that staff resources are allocated most effectively to achieve NRC's regulatory priorities. This procedure requires EDO approval before staff resources may be expended on the development of any new rulemaking. Furthermore, all existing rules must receive EDO approval prior to the commitment of additional resources.

The NRC agenda lists rulemaking actions. Of these, no rulemaking items are considered to be priority or major as defined in section 1(b) of Executive Order 12291.

Eight rules potentially will have a "significant economic impact on a substantial number of small entities" as defined in the Regulatory Flexibility Act.

Dated at Bethesda, Maryland, this 22nd day of August 1991.

For the Nuclear Regulatory Commission.

David L. Meyer,

Chief, Regulatory Publications Branch, Division of Freedom of Information and Publications Services, Office of Administration.

NUCLEAR REGULATORY COMMISSION (NRC) — Prerule Stage

4671. NIGHT FIRING QUALIFICATIONS FOR SECURITY GUARDS AT NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Legal Deadline: None

Abstract: The rulemaking would ensure that security force effectiveness at nuclear power plants is not dependent on the time of day. Security guards currently are required to perform night firing for familiarization only. There is no requirement for standards to measure their effectiveness. The rule would change that by requiring that security guards at nuclear power plants qualify for night firing. The only alternative to rulemaking is to retain the current status.

Part 73, Appendix B, Part IV, will be amended to require reactor security guards to qualify annually in an NRC-approved night firing course with their assigned weapons. The amendment will standardize training and qualification in night firing and prepare power reactor guard forces to respond more effectively in the event of an incident occurring in limited lighting conditions. The cost to industry should be relatively modest since licensees already operate daylight firing training and qualification facilities and

programs. The costs to NRC will also be minimal because it will only require minor licensing, inspection and other regulatory actions. (cont)

4672. EMERGENCY TELECOMMUNICATIONS SYSTEM UPGRADE

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require the implementation of the NRC's Emergency Telecommunications System (ETS) upgrade at all licensed nuclear power plants and selected fuel cycle facilities. The NRC's primary role in an emergency at a licensed nuclear facility is one of monitoring the licensee to ensure that appropriate recommendations are made with respect to offsite actions to protect public health and safety. In order to adequately perform this function, the NRC requires reliable communications with the licensee and the regional offices. Experience with the currently installed ETS had indicated that a sufficient number of problems exist to warrant a system upgrade.

The ETS upgrade will be comprised of a satellite network to transmit between the NRC Operations Center, the Regions, the Technical Training Center (TTC), and the licensee sites with a land-based telephone exchange backup system. This design is expected to provide the necessary emergency telecommunications functions with sufficient redundancy to ensure availability even under the challenging communication conditions that were (CONT)

Proposed Rule Stage

4673. AMENDMENT TO 10 CFR 51.51 AND 51.52, TABLES S-3 AND S-4, ADDITION OF RADON-222 AND TECHNETIUM-99 RADIATION VALUES, AND ADDITION OF APPENDIX B, "TABLE S-3 EXPLANATORY ANALYSIS"

Legal Authority: 42 USC 2011; 42 USC 2201; 42 USC 4321; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 51

Legal Deadline: None

Abstract: The proposed rule amends the Table of Uranium Fuel Cycle Environmental Data (Table S-3) by adding new estimates for releases of technetium-99 and radon-222, and by updating other estimates. The proposed rule's Appendix B to Subpart A (narrative explanation), also describes the basis for the values contained in Table S-3, explains the environmental effects of these potential releases from the LWR Fuel Cycle, and postulates the potential radiation doses, health effects, and environmental impacts of these releases. The proposed rule also amends 10 CFR 51.52 to modify the enrichment value of U-235 and the maximum level of average fuel irradiation (burnup in megawatt-days of thermal power per metric ton of uranium). The narrative explanation also addresses important fuel cycle impacts and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants. Additional Information: ABSTRACT CONT: The proposed revision of 10 CFR 51.51 and the addition of Appendix B was published for public review and comment on March 4, 1981 (46 FR 15154). The final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v. NRC, No. 74-1486) in the U.S. Circuit Court of Appeals. The U.S. Court of Appeals (D.C. Circuit) decision on April 27, 1982, invalidated the entire Table S-3 rule. The Supreme Court reversed this decision on June 6, 1983.

The proposed rule to provide an explanatory narrative for Table S-3 has been revised to reflect new modeling developments during the time the rulemaking was deferred. Final action on the Table S-3 rule was held in abeyance until new values for radon-222 and technetium-99 could be added to the table and covered in the narrative explanation. The rule is being reissued as a proposed rule because the scope has been expanded to include radiation values for radon-222 and technetium-99 and the narrative explanation has been extensively revised from that published on March 4, 1981 (46 FR 15154).

4674. PROPOSED REVISIONS TO THE CRITERIA AND PROCEDURES FOR THE REPORTING OF DEFECTS AND NONCOMPLIANCE AND CONDITIONS OF CONSTRUCTION PERMITS

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Legal Deadline: None

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e), both of which require the reporting of safety defects by operating license (OL) holders and construction permit (CP) holders. In addition, Part 21 requires reporting of safety defects by non-licensee vendors. The proposed amendments were prompted by the TMI Action Plan Task II.J.4 and NRC staff experience with Part 21 and sec. 50.55(e) reporting. The main objectives of the rulemaking effort are: (1) reduction of duplicate evaluation and reporting of safety defects; (2) establishment of a consistent threshold for safety defect reporting in Part 21 and sec. 50.55(e); (3) establishment of a consistent, uniform content of reporting under Part 21 and sec. 50.55(e); and (4) establishment of consistent time frames for reporting of defects in Part 21 and sec. 50.55(e).

Approximately 200 reports are submitted to the Commission annually under Part 21. Approximately 750 sec. 50.55(e) reports are submitted annually. These reports identify both plant-specific and generic safety defects requiring further NRC evaluation and regulatory action. (cont)

Additional Information: ABSTRACT CONT: Under the current Part 21 and sec. 50.55(e), these reports have formed the basis for NRC issuance of numerous NRC generic communications.

The proposed rulemaking will reduce duplicate reporting and evaluation of safety defects which now exist. The rulemaking will establish a more coherent regulatory framework that is expected to reduce the industry reporting and evaluation burden significantly without any reduction in reporting safety defect information.

Current annual costs of reporting under Part 21 and sec. 50.55(e) are estimated at approximately $6 million dollars for industry and $680,000 for NRC evaluations. It is anticipated that the annual industry reporting burden should be reduced by approximately $1 million while the NRC burden will be slightly reduced.

4675. CRITERIA FOR AN EXTRAORDINARY NUCLEAR OCCURRENCE

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 140

Legal Deadline: None

Abstract: The proposed rule would revise the criteria for an extraordinary nuclear occurrence (ENO) to eliminate the problems encountered in the Three Mile Island ENO determination. It is desirable to get revised criteria in place in the event they are needed.

There are no alternatives to this rulemaking, as the current ENO criteria are already embodied in Subpart E of 10 CFR Part 140. The only way to modify these criteria, as this rule seeks to do, is through rulemaking.

There is no safety impact on public health or safety. The ENO criteria provide legal waivers of defenses. Industry (insurers and utilities) claims that a reduction in the ENO criteria could cause increases in insurance premiums. The final rule would also be responsive to PRM-140-1.

Abstract: The proposed rule would shorten and simplify existing Commission procedural rules applicable to domestic licensing proceedings by comprehensively restating, revising and reorganizing the statement of those rules to reflect current practice. The changes in this proposed rule would enable the Commission, directly and through its adjudicatory offices, to render decisions in a more timely fashion, eliminate the stylistic complexity of the existing rules, and reduce the burden and expense to the parties participating in agency proceedings. In 1987, the Commission deferred consideration of this proposal which would have revised the Commission's procedural rules governing the conduct of all adjudicatory proceedings other than export licensing proceedings under 10 CFR Part 110, pending consideration of other, more limited revisions to the rules of practice. In 1989, former Chairman Zech requested that this proposed rule be updated and re-submitted for re-consideration by the Commission.

4678. ELIMINATION OF INCONSISTENCIES BETWEEN NRC REGULATIONS AND EPA HLW STANDARDS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Legal Deadline: None

Abstract: The proposed rule would eliminate several inconsistencies with the EPA standards to be developed for the disposal of HLW in deep geologic repositories. The Nuclear Waste Policy Act of 1982 (NWPA) directs NRC to promulgate criteria for the licensing of HLW geologic repositories. Section 121(c) of this Act states that the criteria for the licensing of HLW geologic repositories must be consistent with these standards. The proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirement.

Because the NWPA directs NRC to eliminate inconsistencies between Part 60 and the EPA standard, the alternatives to the proposed action are limited by statute.

The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations. NRC resources needed would be several staff-years but will not include contract resources.

Because the Federal Court invalidated the EPA standards, action on this rule, which is in response to the EPA standards, is undetermined.(cont)

4679. DISPOSAL OF WASTE OIL BY INCINERATION FROM NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 2167; 42 USC 2073

CFR Citation: 10 CFR 20

Legal Deadline: None

Abstract: The proposed rule, which was initiated in partial response to a petition filed by Edison Electric Institute and Utility Nuclear Waste Management Group (PRM-20-15, dated July 31, 1984), would amend NRC regulations to allow onsite incineration of waste oil at nuclear power plants subject to specified conditions. Currently, the only approved disposal method for low-level, radioactively contaminated waste oil from nuclear power plants involves absorption or solidification, transportation to, and burial at a licensed disposal site. There is a clear need to allow, for very low activity level wastes, the use of alternative disposal methods which are more cost effective from a radiological health and safety standpoint and which conserve the limited disposal capacity of low-level waste burial sites.

Increased savings to both the public and the industry could thereby be achieved without imposing additional risk to the public health and safety. (cont)

4680. RADIOACTIVE WASTE BELOW REGULATORY CONCERN; GENERIC RULEMAKING

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 2; 10 CFR 20

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) sought comments on a proposal to amend NRC regulations to address disposal of radioactive wastes that contain sufficiently low quantities of radionuclides that their disposal does not need to be regulated as radioactive.

The NRC has already published a policy statement providing guidance for filing petitions for rulemaking to exempt individual waste streams (August 29, 1986; 51 FR 30839). It is believed that generic rulemaking could provide a more efficient and effective means of dealing with disposal of wastes below regulatory concern. Generic rulemaking would supplement the policy statement which was a response to Section 10 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Pub. L. 99-240). The public was asked to comment on 14 questions. The ANPRM requested public comment on several alternative approaches that the NRC could take. The evaluation of public comment together with the results from a research contract and a Below Regulatory Concern consensus building effort will help to determine whether and how NRC should proceed on the matter.

Abstract: The proposed rule would, in conjunction with a corresponding rule change by the U.S. Department of Transportation, make the United States Federal regulations for the safe transportation of radioactive material consistent with those of the International Atomic Energy Agency (IAEA). The IAEA regulations can be found in IAEA Safety Series No. 6 "Regulations for the Safe Transport of Radioactive Material," 1985 Edition.

Consistency in transportation regulations throughout the world facilitates the free movement of radioactive materials between countries for medical, research, industrial, and nuclear fuel cycle purposes. Consistency of transportation regulations throughout the world also contributes to safety by concentrating the efforts of the world's experts on a single set of safety standards and guidance (those of the IAEA) from which individual countries can develop their domestic regulations. In addition, the accident experience of every country that bases its domestic regulations on those of the IAEA can be applied by every other country with consistent regulations to improve its safety program. Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations to require a comprehensive quality assurance program for medical licensees using byproduct materials. The purpose of this rulemaking action is to address each source of error that can lead to a misadministration. An ANPRM was published to request public comment on the extent to which in addition to the basic quality assurance procedures (being addressed by another rulemaking action, entitled "Basic Quality Assurance Program for Medical Use of Byproduct Material"), a more comprehensive quality assurance requirement is needed and invites advice and recommendations on about 20 questions that will have to be addressed in the rulemaking process.

Abstract: The proposed rule would establish NRC as the sole authority for approving onsite disposal of very low-level waste at all NRC licensed reactors and at Part 70 facilities. There is a need to amend sec. 150.15 to authorize one agency (NRC) to regulate all onsite disposal of very low-level waste in order to provide a comprehensive regulatory review, to ensure that sufficient records of disposals are retained, to avoid unnecessary duplication of effort, and to provide greater assurance that the site can be released for unrestricted use upon decommissioning.

The proposal is based on a study of comments submitted on an interim final rule published on May 21, 1985 (50 FR 20889), and the 1987 recommendations and report of the American Bar Association (ABA). Since the pre-1985 wording of the definition of meeting is fully adequate to permit the types of non-Sunshine Act discussions that the NRC believes would be useful, the proposal calls for the NRC to reinstitute its pre-1985 definition of meeting, with the intention of conducting its non-Sunshine Act discussions in accordance with the guidelines recommended by the ABA.

Subsection IWE provides the rules and requirements for inservice inspection, repair, and replacement of Class MC pressure retaining components and their integral attachments, and of metallic shell and penetration liners of Class CC pressure retaining components and their integral attachments in light-water cooled power plants. Subsection IWL provides the rules and requirements for inservice inspection and repair of the reinforced concrete and post tensioning systems of Class CC components.

Incorporation by reference of Subsection IWE and Subsection IWL will provide systematic examination rules for containment structure for meeting Criterion 53 of the General Design Criteria (Appendix A of 10 CFR Part 50) and Appendix J of 10 CFR Part 50. (cont)

Additional Information: ABSTRACT CONT: Age-related degradation of containments has occurred, and additional and potentially more serious degradation mechanisms can be anticipated as nuclear power plants age.

If the NRC did not take action to endorse the Subsection IWE and Subsection IWL rules, the NRC position on examination practices for containment structure would have to be established on a case-by-case basis and improved examination practices for steel containment structures might not be implemented. The other alternatives of incorporating these detailed examination practices for steel containment structures might not be implemented. The other alternatives of incorporating these detailed examination requirements into the American National standard ANSI/ANS 56.8-1981 or into Appendix J are not feasible.

Adoption of the proposed amendment would permit the use of improved methods for containment inservice inspection.

4686. MEDICAL USE OF BYPRODUCT MATERIAL: TRAINING AND EXPERIENCE CRITERIA

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 035

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) discussed amending Commission regulations concerning training and experience criteria for individuals involved in the medical use of byproduct material. Rulemaking may be needed to reduce the chance of misadministration. The Commission may proceed with rulemaking, assist in the development of national voluntary training standards, or issue a policy statement recommending increased licensee attention to training. If the Commission proceeds with rulemaking, the NRC could publish criteria in its

regulations or recognize medical specialty certificates. The Commission requested cost/benefit comments in the ANPRM, published May 25, 1988. The contractor study of training, accreditation, and certification programs that are now in place has been completed. The NRC staff has analyzed the comments received in response to the ANPRM and the contractor report. The staff analysis and proposed course of action were provided to the Advisory Committee on Medical Uses of Isotopes (ACMUI) as an agenda item at their meeting on July 10, 1990. (cont)

Additional Information: ABSTRACT CONT: The ACMUI responded that the information which the staff had gathered does not support the premise that training and experience is a factor in misadministrations. The ACMUI suggested that additional information be gathered which includes the training and experience of the person committing the violation. The staff will modify its collection parameters, and continue to collect data. The staff is currently preparing a Commission Paper recommending that NRC not proceed with rulemaking on this issue at this time.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 070; 10 CFR 072; 10 CFR 073; 10 CFR 075

Abstract: The proposed rule would amend the Commission's regulations dealing with physical protection requirements that are out of date, susceptible to differing interpretations, or in need of clarification. These problems were identified by a systematic review of the agency's safeguards regulations and guidance documents conducted by the Safeguards Interoffice Review Group (SIRG). In addition, the staff has identified other areas in the regulations where minor changes are warranted. In response to these efforts, specific amendments to the regulations are being proposed. The proposed changes would: (1) add definitions for common terms not currently defined, (2) delete action dates that no longer apply, (3) correct outdated terms and cross references, (4) clarify wording that is susceptible to differing interpretations, (5) correct typographical errors, and (6) make other minor changes. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) would develop regulations requiring enhanced receipt inspection and testing of products purchased for use in nuclear power plant structures, systems, and components. These regulations are believed to be necessary to provide an acceptable level of assurance that products purchased for use in nuclear power plants will perform as expected to protect the public health and safety. This ANPRM was published to solicit public comments on the need for additional regulatory requirements and to obtain an improved understanding of alternatives to regulatory requirements.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require that security personnel qualify and requalify annually on specific standardized day firing courses using all assigned weapons. Current regulations require day firing qualification using a national police course or equivalent for handguns and an NRA or nationally recognized course for semiautomatic weapons. A firing course specified for shotguns is in need of revision. Recent amendments to Part 73 added a requirement for night firing qualification using specific, designated firing courses. To ensure uniformity, the current day firing requirements should be compatible.

Additionally, current regulations specify that security personnel shall have no physical weaknesses that would adversely affect their performance of

assigned job duties. However, no regulatory standards exist for assuring that security personnel are physically fit to perform their duties. Requirements for a physical fitness program and fitness standards at Category I fuel cycle facilities for security personnel need to be added to the regulations in order to provide a uniform, (cont)

The proposed rule would amend 10 CFR Part 73, Appendix H, to include day firing qualification courses in each type of required weapon as well as a standardized physical fitness training course and fitness standards for security personnel. Alternatives to the rulemaking would be to allow the status quo to continue. Standardization of day firing courses to be consistent with those established for night firing would be of negligible cost to the 3-4 affected licensees and to the NRC because day firing qualification using a variety of firing courses is already being done. Physical fitness training programs would incur moderate costs to the licensees in the area of personnel time and limited physical fitness equipment. The cost to the NRC would be in the area of licensing and inspection activities. Neither area of rulemaking affects occupational exposure.

4690. LOW-LEVEL WASTE MANIFEST INFORMATION AND REPORTING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 020; 10 CFR 061

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to: (1) improve information contained in manifests accompanying shipments of waste to low-level waste (LLW) disposal facilities licensed under Part 61; (2) develop a uniform manifest for national use; (3) require that operators of these disposal facilities store portions of this manifest information in onsite computer recordkeeping systems; and (4) require that operators periodically submit, in an electronic format, reports of shipment manifest information.

To ensure safe disposal of LLW, the NRC must understand the mechanisms and rates by which radioactivity can be released from LLW and into the environment. To do this, the NRC must understand the chemical, physical, and radiological characteristics of LLW. This task is greatly complicated by the heterogeneous nature of LLW; it exists in a variety of chemical and physical forms and contains roughly 200 different radionuclides in concentrations that can range from a few microcuries to several hundred curies per cubic foot. Each year there are thousands of shipments to LLW disposal sites. (cont)

Additional Information: ABSTRACT CONT: The rulemaking will help the eventual development of a complete, detailed national LLW computer data base, operated by DOE or the NRC if necessary, that contains information about waste disposed in all LLW sites, those regulated by NRC as well as by Agreement States. The rulemaking, through development of a uniform manifest, would also improve safe and expeditious movement of LLW from generators through processors or collectors to disposal facilities. Emergency accident procedures would be enhanced through use of a single uniform manifest.

We expect that the rulemaking will slightly increase disposal costs. The rulemaking is a budgeted activity cited in the NRC 5-year plan.

Abstract: The proposed rule would amend the Commission's regulations for the possession of industrial devices containing byproduct material to require device users to report to the NRC on a periodic basis. The proposed report would indicate that the device is still in use or to whom the device has been transferred. The proposed rule would be the most efficient method, considering the number of general licensees and the number of devices currently in use, for assuring that devices are not improperly transferred or inadvertently discarded. The proposed rule is necessary to avoid unnecessary radiation exposure to the public that may occur when an improperly discarded device is included in a batch of scrap metal for reprocessing. The proposed rule would also avoid the unnecessary expense involved in retrieving the manufactured items fabricated from contaminated metal. The proposed rule would impose a small burden on device users and the NRC.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 110

Legal Deadline: None

Abstract: The advance notice of proposed rulemaking (ANPRM) would consider amending the Commission's regulations by reexamining the existing NRC regulations for the import and export of radioactive wastes. This action is necessary to respond to concerns that international transfers of radioactive wastes, in particular low-level radioactive wastes, may not be properly controlled. Various options for establishing a Commission policy on the import and export of radioactive wastes are being considered. The Commission published this ANPRM to seek comments from the public, industry, and other government agencies on various regulatory options and issues developed thus far. Thirty-one comments were received on this ANPRM. The comments were received from several different sources.

4693. CLARIFICATION OF EMERGENCY PREPAREDNESS REGULATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations by clarifying the linkage between the need for "reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency" indicated in Section 50.47(a) and 16 planning standards outlined in Section 50.47(b). In addition, the rulemaking will clarify the term "range of protective" actions. Other issues to be clarified include monitoring of evacuees, actions for recovery and reentry, notification of the public, evacuation time estimates, and exercise frequency.

In a December 23, 1988, memorandum to the EDO from SECY, the staff was directed to review the "...NRC's emergency planning regulations and propose revisions designed to eliminate ambiguity and clarify the regulations to include what constitutes the exercise scope prior to the full power licensing...." The staff outlined the proposed rulemaking in a memorandum from the EDO to the Commission dated June 29, 1989.

4696. REINVESTIGATION OF INDIVIDUALS GRANTED UNESCORTED ACCESS TO NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 073

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require periodic updates of FBI fingerprint checks for reinvestigation of individuals granted unescorted access to nuclear power plants or access to safeguards information. The current regulations require each licensee who is

authorized to operate a nuclear power plant under Part 50 to submit fingerprint cards to the NRC for those individuals who are permitted unescorted access to a nuclear power facility or to safeguards information and who are not exempted under 10 CFR 73.57(b)(2). Fingerprints are used to secure a review of the individual's criminal history record by the FBI. Information received from the FBI is reviewed by the licensee in order to determine whether further unescorted access to the facility or to safeguards information should continue to be granted or denied. The current regulations do not include a reinvestigation element.

In order to address the question of periodic reinvestigation, 10 CFR 73.57, "Requirements for Criminal History Checks of Individuals Granted Unescorted Access to a Nuclear Power Facility or Access to Safeguards Information by Power (cont)

Timetable:

Government Levels Affected: None

Additional Information: ABSTRACT CONT: Reactor Licensees," would be amended. The amendment would require that licensees who operate a nuclear power plant submit fingerprint cards for applicable personnel to the NRC for criminal history checks every 5 years. Authorization for unescorted access would be retained by an individual pending results of the criminal history check on that individual's fingerprints. The alternative is to allow the status quo to continue, with no reinvestigation of utility personnel required.

This rulemaking will have a minimal impact on the NRC because of the NRC's limited participation in processing the reinvestigations. The impact on industry will include the cost of fingerprinting and submitting fingerprint cards through the NRC to the FBI for criminal history checks. The current regulation requires payment of $21 per investigation, payable by the industry. It is expected that this rate would also apply for each reinvestigation and would constitute full reimbursement to the government.

4697. REPOSITORY OPERATIONS CRITERIA

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 060

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations concerning additional preclosure regulatory requirements for high-level waste geologic repositories. Several issues associated with preclosure regulatory requirements have been raised due to different interpretations of the rulemaking record for 10 CFR Part 60. These involve: (a) the lack of clearly prescribed requirements for the establishment of a controlled use area intended to protect public health and safety in the event of a postulated radionuclide release and (b) the definition of structures, systems, and components important to safety for which certain design and quality assurance criteria apply. In order to meet the milestones mandated by the Nuclear Waste Policy Act of 1982, as amended, and milestones pertaining to DOE's production schedule in the Mission Plan amendments, guidance is needed from NRC on these matters to enable DOE to proceed with the siting of a geologic repository. Legal Authority: 42 USC 2201; 42 USC 5841

Abstract: The proposed rule would amend the Commissions's regulations by updating the list of editions of E 185 that are incorporated to include the 1990 edition, which is now in the final balloting stages. The rule would also change the ASME Code Appendix that is referenced in Appendix G, 10 CFR Part 50, from Appendix G of Section III, the construction code, to Appendix G in the 1989 Edition of Section XI, the inservice inspection code. At present the two appendices are identical. The reason for adding an Appendix G in the 1989 Edition of Section XI was to put it under the jurisdiction of a working group whose members were taking an active interest in fracture issues as a consequence of working with the problems of operating plants. Updating is expected to include advances in fracture analysis, because the original Appendix G of Section III has been in use since 1972. (cont)

The added costs to licensees to implement these changes in requirements will be minimal--even a cost savings in many cases.

Abstract: The proposed rule would amend the Commission's regulations by revising the authority citations accompanying some of the regulations to more clearly identify those violations which, if willfully violated, may subject the violator to potential criminal penalties. The NRC has been unable to refer some cases to the Department of Justice (DOJ) or the DOJ has had difficulty in prosecuting cases as a result of the gaps and inconsistencies in the existing authority citations. The proposed rule would specify which regulations were issued under subparagraph "b," "i," or "o" of Section 161 of the Atomic Energy Act. These amendments would ensure that persons subject to the Commission's regulations are put on notice as to which regulations, if willfully violated, may subject them to criminal sanctions pursuant to section 223 of the Atomic Energy Act.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 110

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations governing the import and export of nuclear equipment and material. Miscellaneous changes are proposed in several areas of Part 110. The Commission has reviewed its processing of nuclear export license applications and has determined that the following do not raise issues that require Commission review: (1) license applications for the export of any quantity of heavy water to Canada, and (2) license applications or the export of low-enriched uranium to EURATOM and Japan for enrichment to no more than 5% U-235. The Executive Branch agencies also reviewed their processing of nuclear export license applications and have determined that for these license applications Executive Branch review will not be required.

In addition, the NRC has identified several other areas where minor changes are warranted. These proposed changes would: (1) permit the expedited import and export of certain nuclear material where no significant proliferation risks are involved, (cont)

Additional Information: ABSTRACT CONT: (2) clarify the wording of the coverage of some nuclear commodities, (3) streamline the procedures for public participation in NRC's licensing process, (4) delete from the list of restricted destinations those countries that recently have signed the Non-Proliferation Treaty, (5) add Namibia to the general license for the import into the United States of Namibian origin uranium in any form, (6) add definitions for terms not currently defined, and (7) make other minor changes. There is no acceptable alternative to rulemaking because the amendments to the regulations are necessary to ensure the orderly and efficient administration of NRC's import and export responsibilities without incurring any national security or proliferation risks. The rule should benefit the NRC, industry, and the public by making the regulations easier to understand, implement, and enforce and by expediting the review process for certain kinds of applications.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 020

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to codify the basic principles and criteria which would allow residually contaminated lands and structures to be released for unrestricted public use. The rule would reflect Commission views as defined in the Below Regulatory Concern Policy Statement which was published in the Federal Register on July 3, 1990 (55 FR 27522). For example, lands and structures would be considered suitable for release for unrestrictive use if the licensee demonstrates that the action will comply with the exemption policy's individual and collective dose criteria and other policy conditions. In the final rule on General Requirements for Decommissioning Nuclear Facilities (53 FR 24108) dated June 27, 1988, the need and urgency for guidance with respect to residual contamination criteria was expressed. At that time, it was anticipated that an interagency working group organized by the Environmental Protection Agency would develop necessary Federal guidance. The rule would codify the basic principles and criteria expressed in a staff requirements memorandum dated March 19, 1991. Measurables, in the form of surface and volume radioactivity concentrations and site radioactivity inventory values, would be provided in supporting regulatory guidance. These combined activities should benefit the public industry and the NRC by providing a risk-based framework upon which decommissioning activities and license terminations can be accomplished. The framework will assure adequate protection of public health and safety and identify residual radioactivity criteria upon which licensees can confidently develop reasonable and responsible decommissioning plans.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 026

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's fitness-for-duty regulations to include Category I fuel facilities and Category I shipments. This action is necessary to ensure fitness for duty of employees: (1) who have direct access to large quantities of special nuclear material (SNM); (2) who are responsible for the protection of the material; and (3) who transport the material. The proposed rule is expected to lead to compatibility with equivalent DOE programs.

The central issue for Category I-type facilities and shipments is the risk of theft or diversion of high-enriched SNM due to drug-related causes which, in turn, could pose a significant risk to the health, safety, or security of a large population. Current regulations only cover nuclear power plants and need to be expanded to include Category I facilities and shipments with requirements reflecting the differences between the nuclear power plants and the Category I facilities and shipments. There is no alternative to rulemaking which would accomplish the objectives of the rulemaking.(cont)

4704. TRAINING AND QUALIFICATION OF NUCLEAR POWER PLANT PERSONNEL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to require each applicant and holder of a license to operate a nuclear power plant to establish and use a systems approach in developing training programs for management, supervisory, professional, and technical workers who have an impact on the health and safety of the public. Licensees and applicants would also be required to establish qualification requirements for those personnel. The objectives of the proposed rule are to codify existing industry practices related to personnel training and qualification, and to meet the directives contained in Section 306 of the Nuclear Waste Policy Act of 1982 (Pub. L. 97-425). The task is expected to require approximately 2 staff-years of effort.

4705. RESTRICT MAXIMUM AIR GAP BETWEEN THE DEVICE AND THE PRODUCT FOR GENERAL LICENSED DEVICES

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2111; 42 USC 2232; 42 USC 2233; 42 USC 2273; 42 USC 5842

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to prevent unnecessary radiation exposure to individuals resulting from the use of gauging devices containing radioactive sources. These devices are routinely used for measuring material density, level, weight, moisture, and thickness. The proposed rule would require specific design criteria or other prescribed methods to prevent personnel access to a radiation field in excess of 10 CFR Part 20 limits for unrestricted areas. Controlling devices found to have unacceptable air gaps under a specific license would require licensees to provide more stringent controls over these devices and make licensees subject to routine inspections.

Abstract: The proposed rule would amend the Commission's regulations to require timely decontamination and decommissioning of materials facilities. The amendments would establish a specific time frame for the execution and completion of decontamination of operating materials facilities and decommissioning of materials facilities upon termination of operations. The proposed rule is intended to reduce the potential risk to the public and the environment from contaminated materials facilities after licensed activities are terminated at these facilities.

Legal Authority: 42 USC 2165; 42 USC 2201; 42 USC 2273; 42 USC 5841

CFR Citation: 10 CFR 025

Legal Deadline: None

Abstract: The proposed rule establishes a reinvestigation program for licensee personnel with NRC "Q" and "L" access authorizations. The amendment is necessary to ensure uniformity in the investigative requirements for "Q" and "L" access authorizations. Currently, NRC requires a reinvestigation every five years for its employees, consultants, experts and panel members with "Q" or "L" access authorization, but no routine reinvestigation for licensee personnel with the same level of access authorizations. The proposed rule will also establish the requirement that licensee personnel whose access authorizations were granted five or more years ago would be subject to a reinvestigation similar in scope to that required for NRC employees. This will have no known impact on the public since only licensee personnel who require access to classified National Security Information or Restricted Data for a period of five years or more will be affected. Additional Information: ABSTRACT CONT: This will affect approximately 31 licensees or license applicants who have personnel with such access authorizations. The impact on such licensees will be limited because (1) not all employees requiring access to classified information require such access for a continuous period exceeding five years, and (2) many of the people who would be affected by this proposed rule change are covered by a DOE reinvestigation program for its contractors and those reinvestigations would be acceptable as meeting NRC's requirements. The benefit of the rule change is to establish consistency in the requirements for all personnel, NRC and licensee, who have "Q" and "L" access authorization which will help assure continued eligibility for such authorization. This action will also provide increased assurance of the continuing trustworthiness of affected personnel.

Abstract: The proposed rule would amend the Commission's regulations on the timing of the collection of funds for decommissioning for those nuclear power reactors that have shut down before the expected end of their operating lives. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations regarding the decoupling of source term and dose calculations from reactor siting and the use of updated source term insights for future light water reactors. The NRC is presently in the process of reviewing advanced reactor designs. The DOE has also indicated that it intends to seek review for an early site permit, as permitted by 10 CFR Part 52, by early 1993. Therefore, this rulemaking is viewed as having a high priority. The only alternative to rulemaking would be to continue present staff practice utilizing an outdated source term formulation derived from Technical Information Document (TID) 14844, issued in 1962, coupled with the use of the guideline dose values in 10 CFR Part 100, not only for reactor siting, but for plant design as well. The second phase will consist of a final revision of 10 CFR Part 50 to incorporate updated source term and severe accident research insights into plant design requirements for future light water reactors. Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050; 10 CFR 100

Abstract: The proposed rule would amend the Commission's regulations regarding the decoupling of source term and dose calculations from reactor siting and the use of updated source term insights for future light water reactors. The NRC is presently in the process of reviewing advanced reactor designs, and the DOE has also indicated that it intends to seek review for an early site permit, as permitted by 10 CFR Part 52, by early 1993. Therefore, this rulemaking is viewed as having a high priority. This rulemaking action comprises two phases. In the first phase, Part 100 will be revised by removing source term and dose criteria and adding site criteria (e.g., exclusion area size and population density). (cont)

Additional Information: ABSTRACT CONT: Appendix A to 10 CFR Part 100 will also be revised to update understanding of geologic and seismic knowledge regarding reactor siting. Source term and dose calculations will continue to be used for assessment of plant systems and will be placed in an interim change to 10 CFR Part 50. The second phase of this rulemaking action is described in the proposed rule titled, "Change to Part 50 to Update Source Term and Dose Calculations (3150-AD91)."

The intent of this first phase of rulemaking is basically to codify present staff criteria expressed in Regulatory Guide 4.7. This represents no substantive change in NRC criteria. It will make NRC's siting criteria more explicit and understandable, especially in regard to the Commission's Safety Goal Policy.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 100

Legal Deadline: None

Abstract: The proposed rule would amend Appendix A to Part 100 of the Commission's regulations concerning earth science issues in the licensing of nuclear power plants. The proposed rule is intended to increase the efficiency of regulatory actions associated with any resurgence of licensing activity.

There is a renewed sense of urgency in light of the current and future staff review of advanced reactor seismic design criteria. The proposed revision would help avoid unnecessary delays in the licensing process. The proposed revision to Appendix A would provide general guidance with more detailed information presented in supporting regulatory guides or standard review plan provisions. Criteria not associated with site selection or establishment of the safe shutdown earthquake will be codified in 10 CFR Part 50. The proposed revision to the regulations

would be for future licensing actions. The revised regulations will not be backfitted.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 061

Legal Deadline: None

Abstract: The Nuclear Regulatory Commission (NRC) is proposing to make three specific changes to its regulations containing licensing requirements for low-level radioactive waste (LLW) disposal facilities. The proposed rule would amend the Commission's regulations to require the applicant for a LLW disposal facility license to provide information on the "quality assurance (QA) program, tailored to LLW disposal," that is planned for the facility instead of the "quality control (QC) program." The proposed rule would also amend Part 61 to clarify that above-ground disposal methods such as above-ground vaults are included within the regulatory scope of Part 61. The rulemaking will also correct an administrative error in section 61.80(i)(1) which directs licensees to submit copies of the required annual report to the Director, Division of High-Level Waste Management, rather than the Director, Division of Low-Level Waste Management and Decommissioning. 4717. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Legal Deadline: None

Abstract: The proposed rule would implement the Equal Access to Justice Act (EAJA) by providing for the payment of fees and expenses to certain eligible individuals and businesses that prevail in agency adjudications when the agency's position is determined not to have been substantially justified. This proposed regulation is modeled after rules issued by the Administrative Conference of the United States (ACUS) and has been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent to develop government-wide, "uniform" agency regulations and would describe NRC procedures and requirements for the filing and disposition of EAJA applications. A draft final rule was sent to the Commission in June 1982, but Commission action was suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. This issue was also the subject of litigation in Business and Professional People for the Public Interest v. NRC, 793 F.2d 1366 (D.C. Cir. 1986). (cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Legal Deadline: None

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized. The proposed revisions would make the rule current and improve its usefulness.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations, current regulatory practice which is no longer being reflected accurately by the existing rule, and endorsement in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of containment system boundaries under post-loss-of-coolant accident conditions.(cont)

This amendment informs the public of two additional circumstances where information will not be returned to the applicant, i.e., information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a Freedom of Information Act request.

Additionally, the proposed amendment would add a notice statement to 10 CFR Part 2 that submitters of documents and information to the NRC should be careful in submitting copyrighted works. Abstract: The proposed rule would amend the Commission's regulations concerning the administration of byproduct material for diagnostic and therapeutic procedures. The proposed amendments would require Part 35 licensees to establish and implement a written basic quality assurance program to prevent, detect, and correct the cause of errors in the administration of byproduct material. The proposed action is necessary to provide for adequate patient safety. The proposed amendment, which is intended to prevent errors in medical use, would primarily affect hospitals and clinics. Modification of reporting and recordkeeping requirements for both diagnostic and therapy events or misadministrations are also proposed in this rulemaking. Legal Deadline: None

Abstract: The proposed rule would develop regulations to specify radiation safety requirements and license requirements for the use of licensed radioactive materials in large irradiators. Irradiators use gamma radiation to irradiate products to change their characteristics in some way. The requirements would apply to large panoramic irradiators (those in which the radioactive sources and the material being irradiated are in a room that is accessible to personnel while the source is shielded) and certain large self-contained irradiators in which the source always remains under water. The rule would not cover small self-contained irradiators, instrument calibrators, medical uses of sealed

sources (such as teletherapy), or non-destructive testing (such as industrial radiography).

The alternative to a regulation is continuing to license irradiators on a case-by-case basis using license conditions. The formalization would make the NRC's requirements better understood and possibly speed the licensing of irradiators.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 002; 10 CFR 050; 10 CFR 054; 10 CFR 140

Legal Deadline: None

Abstract: This rulemaking is scheduled for completion prior to the anticipated submittal of license renewal applications for Yankee Rowe and Monticello. The rule will provide the basis for development and review of these two "lead plant" applications and the concurrent development of implementing regulatory guidance. Timely completion of the rule is critical for establishing standards for continued safe operation of power reactors during the license renewal term and providing the regulatory stability desired by utilities in determining whether to prepare for license renewal or pursue alternative sources of generating capacity.

License renewal rulemaking to provide regulatory requirements for extending nuclear power plant licenses beyond 40 years was initiated in response to the Commission's 1986 and 1987 policy and planning guidance. Current regulatory provisions permit license renewal but do not provide requirements for the form and content of a license renewal application nor the standards of acceptability against which the application will be reviewed.

4723. CODES AND STANDARDS FOR NUCLEAR POWER PLANTS (ASME CODE, 1986/1987/1988 ADDENDA, 1989 EDITION)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 050

Legal Deadline: None

Abstract: The proposed rule would incorporate by reference the 1986 Addenda, the 1987 Addenda, the 1988 Addenda, and the 1989 Edition of Section III, Division 1, and Section XI, Division 1, with a specified modification, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code). Also, the proposed amendment would impose augmented examination of reactor vessel shell welds and would separate the requirements for inservice testing from those for inservice inspection by placing the requirements for inservice testing in a separate paragraph. The ASME Code provides rules for the construction of light-water-reactor nuclear power plant components in Section III, Division 1, and provides rules for the inservice inspection and inservice testing of those components in Section XI, Division I.

The proposed rule would update the existing reference to the ASME Code and would thereby permit the use of improved methods for the construction, inservice inspection, and inservice testing of nuclear power plant components. Incorporating by reference the latest addenda of the ASME Code would save (cont)

CFR Citation: 10 CFR 016

Legal Deadline: None

Abstract: The proposed rule would amend the Commission's regulations to establish collection procedures enabling the NRC to recover certain debts (by deductions from pay) which are owned by Federal employees to the NRC or other Federal agencies. The proposed rule is necessary to conform NRC regulations to the Debt Collection Act of 1982 which requires each agency to establish a salary offset program for the collection of these debts. The proposed action is intended to allow the NRC to improve its collection of debts due to the United States. Because the proposed regulation is necessary to implement the Debt Collection Act of 1982, there is no suitable alternative to rulemaking for this action. The proposed rule has

no impact on the public and negligible impact on NRC resources to implement.

Legal Deadline: None

Abstract: The final rule would amend the Commission's regulations dealing with discrimination against persons who, on the grounds of sex, are excluded from participation in, denied the benefits of, or subjected to discrimination under any program or activity licensed by the NRC. The Commission has decided that Section 401 of the Energy Reorganization Act, which prohibits sex discrimination, applies only to the Commission and does not apply to NRC licensees and/or applicants. Since this decision invalidates 10 CFR 19.32 and 10 CFR 2.111, action is being taken to amend these sections and to incorporate appropriate language to clarify that these sections do not apply to licensee employees.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 002; 10 CFR 040; 10 CFR 070; 10 CFR 074

Abstract: The final rule will amend the Commission's regulations to establish material control and accounting requirements for special nuclear material of low strategic significance at uranium enrichment plants, including requirements to detect and prevent enrichment above a specified maximum. On January 31, 1991, Louisiana Energy Systems applied for a license to construct and operate a gas centrifuge plant that would produce low-enriched uranium for the commercial market. Such a plant would be licensed chiefly under Parts 40 and 70. Although the plant would be authorized to produce only low-enriched uranium, the interest of the common defense and security demands that the NRC regulate the plant so as to assure with highest confidence that no centrifuge machine is used to produce uranium in an enrichment higher than that authorized. This is a new and unique problem never before faced by the NRC. Accordingly, no NRC regulation is explicitly designed to deal with the problem. (cont)

Abstract: The proposed rule would amend the Commission's regulations governing orders to provide for the expeditious consideration of challenges to orders that are made immediately effective. The proposed amendments specifically allow challenges to the immediate effectiveness of an order to be made at the outset of a proceeding and provide procedures for the expedited consideration and disposition of these challenges. The proposed amendments would also require that challenges to the merits of an immediately effective order be heard expeditiously, except where good cause exists for delay.

Abstract: The proposed rule would amend the Commission's regulations governing the licensing of uranium enrichment facilities to conform to the Solar, Wind, Waste, and Geothermal Power Production Incentives Act of 1990, which amended the Atomic Energy Act. The principal amendment changed the definition of a production facility to exclude uranium enrichment. Licensing of uranium enrichment plants will be performed pursuant to 10 CFR Parts 40 and 70, rather than 10 CFR Part 50. A new section 193 of the Act revised the requirements for licensing of enrichment facilities with respect to environmental review, adjudicatory hearings, inspection and operation, insurance and decommissioning, and indemnification. The proposed rule presents a number of administrative and conforming changes to 10 CFR Chapter I necessary to implement the requirements of the Atomic Energy Act.

Abstract: The final rule amends the Pressurized Thermal Shock (PTS) rule, published on July 23, 1985, which established a screening criterion, a limit on the degree of radiation embrittlement of PWR reactor vessel beltline materials beyond which operation cannot continue without additional plant-specific analysis. The final rule prescribes how to calculate the degree of embrittlement as a function of the copper and nickel contents of the controlling material and the neutron fluence. The final rule also revises the calculative procedures to be consistent with that given in Revision 2 of Regulatory Guide 1.99. This guide, which was published in final form in May 1988, provides an updated correlation of embrittlement data. (cont)

Abstract: The advance notice of proposed rulemaking (ANPRM) would amend the Commission's regulations to add provisions concerning the scope of environmental effects which would be addressed by the Commission in conjunction with applications for license renewal for nuclear power plants. The NRC is soliciting comments on the scope of environmental issues to be covered in the rulemaking and GEIS and on the ways the results of the GEIS would be incorporated into the rulemaking on Part 51.

NRC believes that a generic Part 51 rulemaking could address potential environmental impacts from the relicensing and extended operation of nuclear power plants. This rulemaking would define the potential environmental impacts which need to be reviewed as part of the relicensing of individual nuclear power plants. The NRC is, therefore, undertaking a study to assess which environmental impacts may occur, under what circumstances, and their possible level of significance.

4749. ● REVISION OF FEE SCHEDULES; 100 PERCENT FEE RECOVERY

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 052; 10 CFR 071; 10 CFR 170; 10 CFR 171

Legal Deadline: None

Abstract: The Omnibus Budget Reconciliation Act of 1990 requires the NRC to collect approximately 100 percent of its budget authority through fees for the next five fiscal years (FY 1991-1995). The law specifies that annual fees shall be established by rule to recover the portion of the NRC budget that is not recovered from appropriations received from the Nuclear Waste Fund and monies recovered through fees assessed under Part 170 for licensing and inspection activities. Therefore, Parts 52, 71, 170, and 171 are being revised. This rulemaking effort is required to comply with Pub. L. 101-508. There is no suitable alternative to rulemaking for this action.

RESOLUTION TRUST CORPORATION (RTC)

RESOLUTION TRUST CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Resolution Trust Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Resolution Trust Corporation (RTC) is hereby publishing items for the October 1991 regulatory agenda. The agenda contains information about the RTC's current and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. Except as indicated, the address for all staff identified in the agenda is Resolution Trust Corporation, 801 17th Street NW., Washington, DC 20434-0001.

SUPPLEMENTARY INFORMATION: The RTC was created on August 9, 1989, as an instrumentality of the United States by title V of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA). Under FIRREA, the RTC was given powers to adopt such rules, regulations, standards, policies, procedures, guidelines, and statements as the Corporation considers necessary or appropriate to carry out its mission. Twice each year, the RTC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Interested persons may petition the RTC for the issuance, amendment, or repeal of any regulations by submitting a written petition to the Executive Secretary, Resolution Trust Corporation, Washington, DC 20434. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Dated: August 20, 1991.

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions, pursuant to chapter 6 of the Administrative Procedure Act and according to guidance given by the Office of Management and Budget. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission invites questions and public comment on individual agenda entries.

DATES: Public comments are due by December 31, 1991.

ADDRESSES: Persons wishing to submit written views should file three copies with Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 5th Street NW., Room 6184, Stop 6-9, Washington, DC 20549. All submissions should refer to File No. S7-28-91 and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: David C. Mahaffey, Assistant General Counsel, or Martha H. Platt, Staff Attorney, Office of the General Counsel, Securities and Exchange Commission, 450 5th Street NW., Room 6144, Stop 6-6, Washington, DC 20549 (202-272-2428). The names of persons to contact concerning particular rules are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) (Pub. L. No. 96-354, 94 Stat. 1164 (September 19, 1980)) requires each Federal agency, during April and October of each year, to publish in the **Federal Register** a regulatory flexibility agenda identifying rules which the agency expects to propose or adopt that are likely to have a significant economic impact on a substantial number of small entities.[1]

The RFA also requires the Commission to publish a plan for the periodic review of all rules issued by the Agency which have or will have a significant economic impact on a substantial number of small entities.[2] The Commission published such a plan in 1981.[3] The plan provides for the review of all rules in effect on January 1, 1981, within 10 years of that date and for the review of all rules adopted thereafter within 10 years of their adoption as final rules.

The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding 12 months.[4] The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some completed rule reviews listed in the agenda may not be subject to RFA review requirements. The Commission lists them here simply to inform the public that they have been reviewed.

The RFA specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included nor is the Commission required to consider or act on any matter which is included.[5] Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities.[6] This preliminary judgment may be changed upon further analysis.

The Commission's agenda includes new entries, as well as items carried over from the April 1991 publication.[7] New entries have a bullet next to the Sequence Number. Priority items are identified under the heading Significance, followed by the words "Agency Priority." The agenda also lists the rulemaking actions which have been completed (or withdrawn) since the last RFA release was published.

The Commission invites public comment on the individual entries in its regulatory agenda.

Dated: September 12, 1991.

By the Commission.

Margaret H. McFarland,

Deputy Secretary.

4772. ● DISCLOSURE OF THE BASES FOR A BOARD OF DIRECTOR EVALUATION OF AN EXTRAORDINARY CORPORATE TRANSACTION

Legal Deadline: None

Abstract: The Division of Corporation Finance is considering whether to recommend that the Commission propose rules that would promote shareholder analysis of extraordinary corporate transactions recommended or approved by the board of directors of the subject company. Amendments would be proposed to Rule 13e-3 and Schedule 13E-3 to apply those provisions to transactions where it is anticipated that management will have a significant interest in the transaction, such as an equity interest in the surviving entity. The proposals also would adopt enhanced disclosure requirements similar to those of Rule 13e-3 for a broader class of extraordinary transactions. The objective of the proposals would be to provide investors with more information concerning the transaction (including the values inherent in the transaction) and the evaluation processes of the board of directors. In connection with this rulemaking project, a review of Rules 13e-3 and 14d-1 through 14f-1 and Schedule 13E-3 for Regulatory Flexibility Act purposes will be conducted.

4777. AMENDMENTS TO RULE 3A12-8

Legal Authority: 15 USC 78c(a)(12)

CFR Citation: 17 CFR 240.3a12-8

Legal Deadline: None

Abstract: The Division of Market Regulation anticipates recommending that the Commission propose amendments to Rule 3a12-8 under the Securities Exchange Act that would, if adopted, designate sovereign debt issued by Italy and the Republic of Ireland as exempted securities under the Securities Exchange Act solely for purposes of marketing and trading futures on those securities in the United States. Section 2(a)(1)(8)(v) of the Commodity Exchange Act prohibits futures trading on an individual security, unless the security is an exempted security. Unlike U.S. government securities, the sovereign debt obligations of foreign governments are not exempt from the Securities Act or the Securities Exchange Act. Accordingly, the Commission promulgated Rule 3a12-8 to designate certain foreign government securities as exempted securities to permit exchange-traded futures contracts on these securities to be marketed in the United States. Because of recent interest by U.S. investors in purchasing futures on Italian and Irish government securities, the Division anticipates recommending that the Commission propose amendments to 3a12-8 that would treat sovereign debt issued by Italy (cont)

Finally, the Division anticipates recommending an amendment to Rule 3a12-8 to change "West Germany" to "Federal Republic of Germany," the formal name of the reunified East and West Germany.

CFR Citation: 17 CFR 240.19h-1

Legal Deadline: None

Abstract: The Division of Market Regulation anticipates recommending amendments to the Commission to Rule 19h-1, which requires self-regulatory organizations ("SROs") to submit to the Commission filings whenever a person subject to a statutory disqualification, as defined in Section 3(a)(39) of the Securities Exchange Act of 1934, seeks to become associated with or continue his/her association with a broker-dealer that is a member of an SRO. Congress recently amended the definition of statutory disqualification to include, among other things, convictions of any felony within the last ten years and disciplinary actions taken by foreign governmental entities and SROs. The proposed amendments will address the recent changes in the definition of statutory disqualification and other areas of the rule that experience has shown can be simplified and improved.

Abstract: The Division of Market Regulation is considering recommending that the Commission redesignate Rule 10b-13 as Rule 14e-5 to more accurately reflect the underlying rationale of the rule and logically place the rule among those specifically dealing with tender offers. In addition, the proposals would clarify and seek comment with respect to the application of paragraph (c) of the rule, which permits employee stock purchase plans associated with the bidder to purchase otherwise than pursuant to the tender or exchange offer.

Abstract: The Division of Market Regulation is considering recommending that the Commission amend Rule 10a-1, which prohibits short sales under certain circumstances. The proposals would provide an exemption to permit specialists to equalize the opening price of a foreign security on a U.S. exchange with its price in the principal foreign market, to exclude from application of the rule transactions in non-convertible corporate bonds effected on an exchange, and to codify a no-action position relating to certain liquidations of index arbitrage positions. Abstract: In connection with Commission's plan to coordinate the broker-dealer registration process with the Central Registration Depository, the Division of Market Regulation anticipates recommending to the Commission amendments to Rules 15b1-2, 15Ca2-2 and 15Ba2-2(b) under the Securities Exchange Act of 1934. The amendments would eliminate the requirement that applicants for broker-dealer registration file a statement of financial condition and representations regarding their financial resources as part of their applications on Form BD. The rules of the self-regulatory organizations currently require broker-dealers to file a statement of financial condition (or to otherwise demonstrate their financial ability to conduct business as a broker-dealer) with their applications for membership.

Abstract: The Division of Market Regulation anticipates recommending to the Commission amendments to Rule 10b-10 under the Exchange Act. The amendments would require disclosure as to whether customers' accounts are carried by broker-dealers that are members of the Securities Investor Protection Corporation and of investment company sales charges, clarify application of the rule to repurchase and reverse repurchase transactions, modify the yield disclosure requirements for certain debt securities collateralized by receivables subject to prepayment risk, clarify the rule's requirements concerning distributions of securities subject to contingencies, and codify existing staff interpretations allowing dividend reinvestment plans to follow quarterly confirmation procedures. Although certain of the proposals would impose some additional costs on small entities, other proposals would reduce costs.

Abstract: The Division of Investment Management is considering several modifications to Form N-1A including: reducing the number of copies to be filed with the Commission; conforming the language of Form N-1A with Forms N-3 and N-4; and clarifying many of the current disclosure requirements. The staff is also considering changes in rules 24f-1 and 24f-2, the rules that permit certain investment companies to register securities sold in excess of the number of shares included in a registration statement, to clarify the rules' operation with respect to the measurement of time periods and filing requirements in the context of investment company reorganizations. Legal Authority: 15 USC 77j; 15 USC 77s; 15 USC 80a-37(a)

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Currently, unit investment trusts advertise their performance by means of an "estimated current return," which shows estimated cash flow. However, in a market environment characterized by fluctuating interest rates, estimated current return may not accurately convey the yield of UITs. The Division of Investment Management is undertaking to develop for recommendation to the Commission a rule proposal setting forth a uniform method of computing UIT yields. A uniform method of computation would permit investors to make more informed investment decisions by enabling them to compare the performance of different trusts. The staff is studying a proposal for a uniform method of computing UIT yields submitted by the Investment Company Institute.

Legal Authority: 15 USC 80a-6(c)

CFR Citation: 17 CFR 270.6c-12 (New)

Legal Deadline: None

Abstract: The Division of Investment Management is considering whether to recommend that the Commission propose a rule that would codify many exemptions from provisions of the Investment Company Act granted to two-tier real estate limited partnerships. Exemptions pursuant to Section 6(c) of the Act have generally been granted where: 1) the two-tier partnership invests in limited partnerships engaged in the development and building of housing for low and moderate income persons; 2) the limited partnership interests are sold only to suitable investors; and 3) requirements for fair dealing by the general partner of the issuer with the limited partners of the issuer are included in the basic organizational documents of the partnership. Abstract: The Division of Investment Management, together with the Divisions of Corporation Finance and Market Regulation, has undertaken a year-long comprehensive study of the Investment Company Act of 1940 in an effort to modernize the existing regulatory structure governing investment companies. The study will consider a broad range of issues including: possible alternative regulatory structures for certain investment vehicles; corporate governance; distribution; securitization of assets; internationalization of the securities markets; issues arising under the Securities Act of 1933; issues related to tax law; issues related to the entry of banks into the investment company business; insurance products; and other matters. Proposed amendments to Rules 12b-1 and 17d-3 and proposed rule 6c-10, all under the Investment Company Act of 1940, and Mutual Fund Governance, were formerly separate items on the agenda that have been merged with this item.

Abstract: In February 1991 the District Court of the Southern District of New York issued a decision interpreting Form N-1A, the registration form used by open-end management investment companies to register under the Investment Company Act and to register their securities under the Securities Act of 1933. The court held that disclosure concerning a fund policy of "freezing" time for purpose of measuring sales load under a contingent deferred sales loan arrangement when a shareholder transferred funds to an affiliated money market fund did not have to be disclosed in the fund's prospectus. The

Both proposals would have permitted, if all conditions of the rule were satisfied, the sending of a final prospectus no later than five business days after a confirmation of sale was sent to an investor in such an offering. Abstract: Rule 15c2-11 governs the submission and publication of quotations by brokers or dealers for certain over-the-counter securities. Currently, the rule applies principally to the initiation or resumption of quotations in the National Daily Quotation Service, which is also known as the "pink sheets." The Commission has proposed amendments to the rule that would substantially narrow the piggyback exception so that self-piggybacking would be excepted under defined conditions and every broker-dealer generally would be required to obtain and review the specified information before submitting a quotation for a covered security. An additional amendment would encourage the creation of one or more central information repositories by permitting broker-dealers, under certain conditions, to rely on the presence of required issuer information in such a repository instead of maintaining those files internally. The amendments would further the Commission's efforts to combat fraud and manipulative conduct in the penny stock market.

Abstract: Section 206 of the Securities Enforcement Remedies and Penny Stock Reform Act provides that a registered transfer agent may not, directly or indirectly, engage in any activity in connection with the guarantee of a signature of an endorser of a security, including the acceptance or rejection of such guarantee, in contravention of Commission rules prescribed to facilitate the equitable treatment of financial institutions which issue such guarantees. Pursuant to Section 206 of the Reform Act, the Commission anticipates proposing for comment a rule that would: (i) prohibit inequitable treatment of eligible guarantor institutions; (ii) require transfer agents to establish written standards for the acceptance of signature guarantees; (iii) prohibit rejecting signature guarantees from members or participants in a recognized guarantee program; and (iv) beginning on January 5, 1993, require all eligible guarantor institutions to be a member of or participant in a recognized guarantee program.

Abstract: The Division of Market Regulation is considering recommending that the Commission propose for comment Rule 17Ad-16 under the Securities Exchange Act of 1934, which would require a transfer agent to provide written notice to securities depositories when terminating or assuming transfer agent services on behalf of an issuer or when changing its name or address. The proposed rule would address a continuing problem affecting prompt securities certificate transfer and increase the efficiency of the National System for the Clearance and Settlement of Securities Transactions as set forth in Section 17A of the Act. Transfer agents with no name or address changes and with no change in the issues for which they provide services will not be affected by this rule and will not need to file a notice. The Division expects a majority of small transfer agents and in-house transfer agents to fall into this category. Compliance costs would be minimal for transfer agents even when the rule applies. A transfer agent that changes its name or address or terminates or assumes transfer agent services on behalf of an issue need only file a short notice with one of three registered (cont)

Abstract: On March 9, 1987, the Commission reproposed for public comment Form N-7, a new form for registering unit investment trusts ("UITS") and their securities under the Investment Company Act of 1940 and the Securities Act of 1933. Form N-7 was originally proposed by the Commission on May 14, 1985. Adoption of Form N-7 would (i) codify the disclosure requirements for UITS into one form; (ii) codify the disclosure standards that have been developed for UITS; and (iii) shorten and simplify the prospectus used in connection with the sale of units in both the initial offering and in the secondary market maintained by the sponsor. The requirement for audited financial statements would be eliminated under certain circumstances. Under the reproposal, the requirement that registrants include certain third party financial statements in the registration statement would be extended to insurers as well as guarantors of portfolio securities of the trust.

Abstract: Absent an exception, every solicitation of a proxy, authorization or consent with respect to any security issued or to be issued by a registered investment company, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to some duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. However, if revisions were proposed that applied to all registered investment companies soliciting proxies, unless the solicitation is excepted, such revisions could have a significant economic impact on a substantial number of small entities.

Abstract: The Commission proposed rules that would have exempted smaller investment advisers from most federal adviser regulation, other than the general antifraud provisions, if the advisers were registered in all states in which they do business. The proposed rules would have relied on the states to assume responsibility for the detailed regulation that, at the federal level, would no longer have been applicable to small advisers exempt under these rules. The proposed rules, which included both an interstate and an intrastate exemption, determined eligibility for the exemptions by reference to the size of the adviser's business; whether the adviser had custody of client funds or securities; and whether the adviser was registered as an adviser in the state or states in which it does business.

Abstract: The Commission has proposed several amendments to its proxy rules that would facilitate securityholder communications in furtherance of informed proxy voting and reduce compliance costs for all persons engaged in a proxy solicitation by: (1) creating a new exemption for solicitations by "disinterested persons," including securityholders, while retaining application of the anti-fraud provisions of the law; (2) expanding access to security lists; (3) eliminating the preliminary filing requirement for all proxy soliciting materials except the written proxy statement and form of proxy; and (4) providing that all proxy materials filed in preliminary form shall be made public immediately upon filing rather than affording non-public status to such materials. This is the first in what is expected to be a series of rulemaking initiatives that may arise from the Commission's ongoing proxy review including such issues as: increased securityholder access to issuer proxy materials; confidential proxy voting and independent third-party tabulation; mandatory shareholder vote on anti-takeover devices; expansion of a Federal one-share, one-vote requirement; and permitted (cont)

Legal Authority: 15 USC 78o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.15c3-3

Legal Deadline: None

Abstract: Because the borrowing of government securities plays an important role in the government securities market, the Commission believes that, for purposes of the customer protection rule, the categories of instruments that broker-dealers can provide to customer lenders of government securities should be expanded to include certain instruments currently not listed in the rule. Therefore, the Commission has proposed an amendment to the customer protection rule that would allow broker-dealers to provide, in addition to the instruments currently listed in the rule, certain government securities as the collateral in government securities borrowings.

Legal Authority: 15 USC 78o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.15c3-1

Legal Deadline: None

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the specialist financial responsibility rules and specialist financial surveillance systems of the various exchanges. As a result, the Commission has proposed amendments to the net capital rule that, among other things, will make the rule applicable to certain specialists that are now exempt from the rule. In addition to the consequential overall financial accountability and discipline that results from the application of the net capital rule, the Commission believes it would be desirable to have a uniform measure whereby it may review the financial health and liquidity of all specialists at all exchanges.

Legal Authority: 15 USC 78o(c)(3); 15 USC 78w

CFR Citation: 17 CFR 240.15c3-1

Abstract: In response to the October 1987 market break and as a part of its comprehensive market break study, the Division of Market Regulation examined the appropriate levels of minimum net capital required of registered broker-dealers. As a result, the Commission has proposed amendments to the net capital rule that, among other things, would raise the minimum net capital required of various classes of registered broker-dealers. The Commission believes that these higher levels of required net capital are justified based upon the risks posed by undercapitalized firms to customers and to the securities system as a whole.

Abstract: The Commission has proposed amendments to Rule 10b-7, which regulates stabilizing activities to facilitate an offering. The proposed amendments would permit the stabilizing price in an offering of a foreign security to reflect the price of the security in the foreign market that is the principal market for such security, if the stabilizing activity otherwise complies with the rule. Adjustments of stabilizing bids based on exchange rate fluctuations between the currencies of the markets on which the security is being stabilized would also be permitted. The amendments would also deem foreign stabilizing transactions during an offering of a foreign security in the U.S. made in compliance with comparable foreign regulations not to be in violation of Rule 10b-7.

Abstract: The Commission has proposed disclosure rules involving penny stock transactions as required by the Securities Enforcement Remedies and Penny Stock Reform Act of 1990. The rules, which will supplement Rule 15c2-6, the Commission's cold-calling rule, are in response to problems of fraud and manipulation involving abusive sales tactics in the penny stock market. The rules define penny stock, and set forth the requirements for a risk disclosure document, disclosure of compensation of broker-dealers and associated persons, disclosure of quotations, and account statements. In addition to the rules required under the Penny Stock Act, the Commission has proposed a rule requiring disclosure of market-making status with respect to transactions in penny stock.

4833. ● SECURITIES TRANSACTIONS EXEMPT FROM TRANSACTION FEES

Legal Authority: 15 USC 78a et seq

CFR Citation: 17 CFR 240.31-1

Legal Deadline: None

Abstract: Many transactions occurring after regular trading hours involve portfolio trades. These transactions, when executed overseas, currently may be exempt from Section 31 transaction fees pursuant to Rule 31-1(e). The amendment to Rule 31-1, as proposed by the Commission, would provide a limited exemption from the payment of Section 31 fees for sales involving 15 securities or more at one aggregate price occurring on or off an exchange in listed securities after regular trading hours. By aligning the fee exemption for after hours portfolio trading to match the treatment for overseas trading, the proposal should promote the public interest and equal protection of markets because it will remove an incentive for executing these trades overseas. The proposal provides an exemption from the payment of fees for certain securities transaction. The impact on Section 31 fees received by the Commission should be minimal if the off-hours trading systems accomplish their purpose of attracting after-hours overseas order flow currently exempt from fees.

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies that issue periodic payment plan certificates or are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission has proposed a simplified three-part form because current prospectuses have become too cumbersome for the average investor to understand and current requirements result in the disclosure of much information that is not necessarily material to an investment decision.

Abstract: Proposed Rule 17 clarifies under what conditions diversification into non-utility enterprises would not be deemed detrimental to the public interest or the interest of investors or consumers within the meaning of the "unless and except" clause of Section 3(a)(1) of the Public Utility Holding Company Act of 1935. The rule would provide two alternative "safe harbors." A companion proposed amendment to Rule 2 under the Act would require that, in order for a claim of exemption under Rule 2 to be effective, the claimant must meet one of the safe harbor provisions of Rule 17. Also proposed is an amendment to Form U-3A-2, the statement filed annually by holding companies claiming exemptions under Rule 2, that would request information necessary to determine whether a Rule 2 claim of exemption by an intrastate holding company was meritorious in light of the requirement added to Rule 2. These proposals could significantly increase regulatory compliance costs for those intrastate public utility holding companies that have diversified operations, or that intend to do so. The proposals could require such a company to forego acquisition of an unrelated non-utility interest or to (cont)

Abstract: The Commission has proposed amendments to the disclosure requirements for mutual funds, that would include alternative amendments for providing investors information about the investment results achieved by funds. The first proposal would require management to discuss and analyze the mutual fund's performance during its previous fiscal year and the techniques used to achieve that performance in light of the fund's objectives. The second proposal would require a comparison of fund performance over certain time periods to the performance of an appropriate securities index over the same periods. The proposed amendments also would require disclosure about persons who significantly contribute to the investment advice relied on by funds. Finally, the proposed amendments would shorten and simplify the per share table contained in the prospectus.

Abstract: The Commission has adopted a multijurisdictional disclosure system consisting of rules, forms and schedules that will facilitate cross-border

offerings of securities and continuous reporting by specified Canadian issuers. Canadian issuers meeting certain eligibility criteria generally may register and report with the Commission by providing disclosure documents prepared in accordance with the requirements of Canadian regulatory authorities. Additionally, tender offers for Canadian companies may be made in accordance with Canadian rules in specified circumstances where a limited number of shareholders reside in the United States. In connection with this system, the Commission also revised existing rules and forms to permit registration and reporting by Canadian foreign private issuers on an equal basis with all other foreign private issuers. One of those revisions has the effect of exempting Canadian foreign private issuers from certain proxy and insider report requirements. In addition, certain Canadian persons may act as sole trustees in connection with indentures qualified under the Trust Indenture Act of 1939 relating to securities offered under the system, and (cont)

Abstract: The Commission has adopted rules and forms to implement the Trust Indenture Reform Act of 1990. The adopted rules and forms are to be used as follows: (a) applying for exemptions from one or more provisions of the Act; (b) obtaining a determination as to the eligibility of trustees under indentures relating to securities to be offered on a delayed basis; (c) obtaining a determination as to the eligibility of foreign persons to act as sole trustee under qualified indentures; and (d) obtaining an order staying a trustee's duty to resign. Existing forms also were amended to conform to amendments to the Act that no longer authorize refusal of qualification on the basis of pre-default conflicts of interest.

Abstract: Rule 15c2-11 governs the submission and publication of quotations by brokers or dealers for certain over-the-counter securities. The rule applies principally to the initiation or resumption of quotations in the National Daily Quotation Service, which is also known as the "pink sheets." The Commission adopted amendments to the rule that are intended to clarify and enhance a broker-dealer's obligation to obtain and maintain information before commencing or resuming quotations in the pink sheets. The amendments further the Commission's efforts to combat fraud and manipulative conduct in the penny stock market.

Legal Authority: 15 USC 78a; 15 USC 78c; 15 USC 78f; 15 USC 781; 15 USC 78w

CFR Citation: 17 CFR 240.12a-7

Legal Deadline: None

Abstract: The Commission has adopted Rule 12a-7, which exempts from the registration provisions of Section 12(a) of the Securities Exchange Act of 1934 securities that are traded as part of a market basket transaction, provided that each component security otherwise is a national market system security and is listed and registered on another national securities exchange or quoted on the National Association of Securities Dealers Automated Quotation System. In addition, to be eligible for an exemption pursuant to Rule 12a-7, the stocks must be part of a standardized market basket containing at least 100 securities. The exemption is applicable only to facilitate the trading of securities as part of a standardized market basket that previously has been approved for exchange trading by the Commission pursuant to Section 19(b) of the Act. The rule will reduce costs to national securities exchanges because without the exemption such exchanges would either have to apply for unlisted trading privileges or register under Section 12 of the Act those securities that are only traded on their exchange as part of a market basket.

Significance: Agency Priority

Legal Authority: 15 USC 80a-2(a)(41); 15 USC 80a-22

CFR Citation: 17 CFR 270.2a-7

Legal Deadline: None

Abstract: On February 13, 1991, the Commission adopted several amendments to rules and forms affecting money market funds, including rule 2a-7. Among other things, the amendments require money market fund boards to approve or ratify the purchase of securities rated by only one NRSRO or unrated securities. Following adoption of the amendments, the Commission was advised that this requirement would impose a significant burden on tax exempt money market funds because a large number of the instruments in which they invest are unrated or rated by only one NRSRO. Consequently, on April 8, 1991 the Commission proposed that tax exempt money market funds be excluded from this requirement. This amendment was adopted by the Commission, as proposed, on May 13, 1991 and became effective on June 1, 1991.

INDEX TO ENTRIES THAT MAY AFFECT SMALL ENTITIES

The Regulatory Flexibility Act (5 U.S.C. 601) requires that agencies publish regulatory agendas identifying those rules that may have a significant economic impact on a substantial number of small entities. Agencies meet that requirement by including the information in their submissions for the **Unified Agenda of Federal Regulations.**

The following index lists the regulatory actions that agencies in the Unified Agenda believe may have effects on small businesses, small governmental jurisdictions, and/or small organizations. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition of the Agenda. For further information, see the Regulatory Information Service Center's Introduction to the Unified Agenda in Part II of this issue.

INDEX TO ENTRIES THAT MAY AFFECT GOVERNMENT LEVELS

Executive Order 12612 of October 26, 1987, entitled "Federalism" (3 CFR 1987 Comp., p. 252) directs Executive departments and agencies to identify proposed regulatory provisions that have significant federalism implications. As part of this effort, agencies include in their submissions for the **Unified Agenda of Federal Regulations** information on whether their regulatory actions have an effect on various levels of government.

The following index lists the regulatory actions that agencies in the Unified Agenda believe may have effects on local, State, and/or Federal levels of government. The Sequence Number (Seq. No.) of the entry identifies the location of the entry in this edition of the Agenda. For further information, see the Regulatory Information Service Center's Introduction to the Unified Agenda in Part II of this issue.

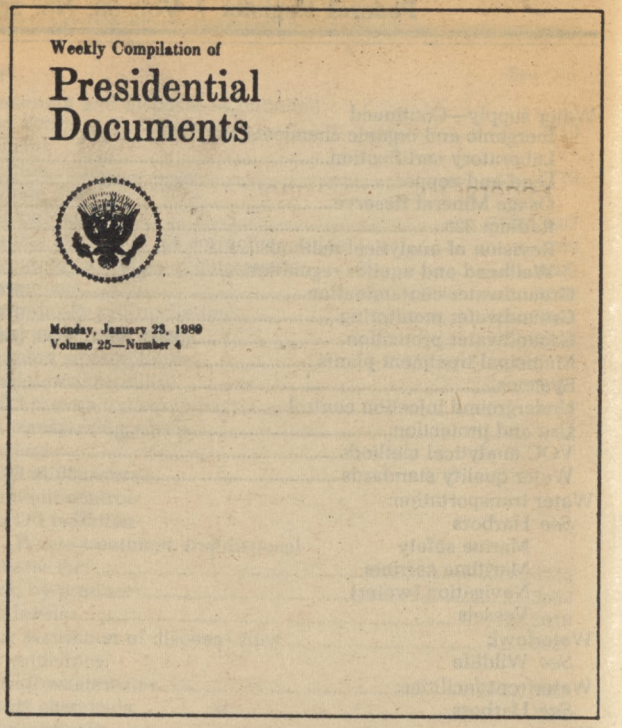
The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

Administration of George Bush



This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.
